Sad Fatality

Young Man Killed in Climax District

A sad fatality took place on the farm of F. S. James, in the Climax district, on Wednesday, April 27th, about six p.m., when E.G. Williams, an employee, lost his life.

Just how the accident happened will never be known. Deceased had been in the field all day with a cultivator and eight horses, and was on his way home from the day's work when the accident occurred. Something had gone wrong, and he was heard calling to the horses. Shortly thereafter Mr James observed the cultivator overturned, and deceased lying on the ground some short distance away. On arriving at the scene he found life to be extinct. The supposition is that Williams had fallen off the cultivator, his head striking a wheel. The only mark on the body was a deep cut behind the ear.

Deceased was 21 years of age, and a great favourite in the district. A native of Wales, he had only been nine months in the country. A brother, W. M., lives here, while his parents and a brother reside in Wales, and to whom much sympathy will be extended in their sad and sudden bereavement.

AN APPRECIATION

The alarming suddenness with which an accident deprived one of the finest young men in the settlement of his life, has cast a gloom over the entire community. Evan G. Williams and his pleasant, open hearted smile are no more. The Revs. J. M. Hughes and T. E. Jeffreys officiated at his funeral on Friday, and both delivered splendid funeral orations, although sorely handicapped by the same tense feeling as the large number of people who had gathered together to pay this last tribute to the departed.

Endowed, by nature, with a powerful physique, and a very pleasant disposition, Evan was one of the finest type of young men who ever crossed the Atlantic, and a very desirable member of the settlement. He was a faithful member of Wood River Church and the Male Voice Choir. Rather rough luck to be killed by an accident after serving the Empire for three years without a scratch.

The most heartfelt sympathy of the whole community in general, and the choir in particular is extended to his sorrowing brother Will.

THE LATE MRS A. J. CRANDALL

It is with regret that the Herald chronicles the death of Mrs A. J. Crandall, which took place at her home in Bellingham, Washington, on Saturday, April 23, at the age of 61 years.

Deceased was well known, Mr and Mrs Crandall having been farming in this community for 20 years, most of which time was spent in the Berrybank district, and it is only recently since they decided to make their home in Washington. Mrs Crandall was born in Marshalltown, Iowa.

She is survived by her husband and a family of eight—two sons and two daughters residing in Alberta, and two sons and two daughters are in Bellingham, Washington.

Another Oil Boom

While a genuine oil boom has not yet struck these parts, the craze has caught hold of some of the districts to the east of us. Tofield is up in the air. Oil, sure! While the Wainwright balloon has simply burst in a novel fashion.

Remembering the last attack, the Herald advises those susceptible to such disease to go and get vaccinated forthwith ere the fever strikes them. Geo. Sheppard, one of the Imperial Oil company's geologists went to Wainwright last week and found an amusing if not tragic situation. Samples of oil taken from the wells had every appearance of being pure kerosene. He had suspicions of an oil tank at the rear of a hardware store, and it was there he started exploring. There wasn't even a leak, as far as the hardware people knew, but the geologist thought there must be.

The tank was about five feet deep, and had a capacity of about 100 gallons. Its bottom was considerably above the bottom of the wells, the ground sloping gently from the store for the distance of some twenty yards.

Mr Sheppard dug down, and the mystery was solved. For the past five years there must have been a hole in the bottom of the tank, and so the oil seeped through the soil to the wells. That's how Wainwright came to have an oil boom.

INDIAN CHIEF ERMINE SKIN DEAD

Death has called Ermine Skin, chief of the Indians at Hobbema Indian Reserve, and has removed from the west one of its historic figures, a native of the west, who for the past ninety four years lived in the Edmonton district. The big chief died at the Hobbema Reserve on Tuesday.

Ermine Skin's life was enwrapped in the history of Edmonton and the Edmonton district. Away back in those days when Edmonton was merely a trading post, Ermine Skin was here. He traded and bartered with the traders of the old school, and eventually proved himself to be one of the country's loyal native citizens. Reputation claims him to have been a great hunter and trapper in his day; a man who could not be excelled in the native Indian art.

Ermine Skin's name is linked with the Riel Rebellion, when efforts made by him resulted in the cessation of many conflicts, and the non-entry of additional tribes into the fight against the white Canadian citizenship of the day. For this loyalty, Ermine Skin was made chief of his tribe, a position he held until his death. The dead chief will be succeeded by his son Pany, who has already passed the half century mark in the matter of years.

Halifax, May 2—Seeding has commenced in some sections of western Nova Scotia, where weather conditions permit, but generally throughout the province the farmers have yet to begin their planting. Weather conditions, it is said, favor an earlier start than usual this year.

Death of W. H. Smith

Today we chronicle the death of William Henry Smith, which took place at his residence in Ponoka on Saturday, April 30th.

Born at Otterville, Ontario, on March 30th, he had reached the aged of 62 years. During the latter years of his life he has had continued ill health, but a bright religious experience sustained him under it. He was converted to God in 1885, after which he joined the Salvation Army, of which he was for 22 years an earnest member, and for the past eleven years he has been a member of the Methodist church. He was married in September, 1886, to Miss Effie Forbes, who survives him.

Eleven years ago the family moved west, and settled in Ponoka. On the way out Mr Smith was stricken with typhoid, and the following year became a sufferer from diabetes. Against this disease he struggled manfully, working when he had strength, endeavouring to do so often when he was unfit. A lover of clean manly sport, nothing pleased him better than to get out with his rod or gun, and many a story he recounted to his friends of his hunting experiences.

He leaves to mourn his loss his wife, one son, Harry, and a daughter, Phyllis, one sister, a brother and two half brothers.

The remains were laid to rest in Forest Home Cemetery on Monday afternoon, the services being conducted by Rev. Mr Bishop, after which a most impressive service by the Masonic Order, of which Mr Smith was a member. As showing the esteem in which he was held, the attendance of the brethren, as also of the general public, was very large.

NONE SHALL ESCAPE FROM INCOME TAXES STATES INSPECTOR

Montreal, April 29.—"No person liable to income tax is going to get away without payment of duty. He may dodge income tax one year, or two years, or even three years, but eventually he will be caught up with, and then he will have his full income tax to pay for the whole period, plus penalties and interest," said R. C. Graham, chief inspector of taxation.

AUTEN—ALEXANDER

A quiet wedding was solemnized in the Union Church at 1 p.m. on Wednesday, April 27th, when Miss Eutha Alexander, of Statesville North Carolina, was united in marriage to Mr Earl Hugh Auten, of Ponoka—Rev. C. Bishop performed the ceremony.

The bride was accompanied by Miss Vivian Headley, while Mr Raymond Ferguson supported the groom.

The happy couple met with an enthusiastic reception on emerging from the church, and managed to escape by car and made their way north to Edmonton for a short honeymoon. They will make their home in the Ponoka district.

What is Threaded Rubber?

THREADED RUBBER applies to only one kind of battery insulation—that between the positive and negative plates of every **Still Better Willard Battery.**

Every piece of Threaded Rubber Insulation is a thin sheet of specially prepared rubber pierced by hundreds of thousands of tiny threads.

Because of the peculiar combination of threads and rubber, this insulation has the following important advantages over ordinary insulation:

1. It answers once and for all the question of replacing the insulation.
2. It retains its insulating properties to the end of the battery's life.
3. It permits bone-dry shipment and storage of batteries.
4. It adds to the life as well as the reliability of the Still Better Willard, the only battery in which it can be had.

The Shortage of Homes

While not prepared to fully accept the statement recently credited to Canada's only woman cabinet minister that this Dominion stands in need of one million new houses, which would mean that at the present time something more than one-half our estimated population of nine millions of people lack reasonable housing accommodation—most Canadians will readily agree that the provision of additional housing is one of the pressing needs of this country. Canada, however, is not peculiar in this respect; it is a condition which prevails in practically all countries, and constitutes a problem that is engaging the attention of people in Great Britain, the United States and other countries.

Dealing with the housing problem in Great Britain a short time ago, Lloyd George uttered one of those epigrams for which he is noted, and compressed in a few words a truth which it is well all statesmen, in fact all citizens, should recognize. He said: "You cannot maintain an A-1 empire with a C-3 population. You cannot bring up healthy people in unhealthy homes."

A lack of adequate and proper housing accommodation means the wholesale herding of people into overcrowding of people and whole families in buildings where the necessary conditions of sanitation required to maintain health cannot be observed; it means the use for purposes of habitation of buildings which should not be devoted to such purposes; it means a loss of that privacy in family life, the loss of which so frequently leads to a laxity in morals; it means, in fact, the physical and moral deterioration of the people and a consequent weakening of the nation. The effect on babies and young children, who are the hope and citizenship of the future, is positively dangerous and alarming.

Socially and economically the result of inadequate and bad housing is just as serious as it is in a physical way. When people are compelled to live cluttered together in a state of congestion, or in habitations which are not fit for human beings, unrest and general dissatisfaction with the prevailing order of things is engendered, and, as inevitably Governments and the present system of industrial life and society are blamed, rabid socialistic and even revolutionary ideas and doctrines are accepted and spread, discontent grows, and the very life of the State is threatened, the while the physical standard is being lowered.

Revolutionary ideas and extreme socialistic doctrines seldom find much acceptance among people who are the owners of the dwellings in which they live. Ownership of a bit of land, and a home which becomes a permanent home, is the best possible guarantee of contentment within and stability for a nation. In Canada it is frankly recognized that the large percentage of the population engaged in agriculture and living on land of their own, and not as tenants, is the one outstanding reason why this Dominion has escaped to a greater extent than perhaps any other country the perils which have threatened the world following the upheaval of the Great War.

If not a million new houses, at least tens of thousands are required in Canada this year. Yet the prospect of obtaining them is remote unless some action is taken to meet the need. It cannot be met under existing conditions if left solely to individual effort, initiative, enterprise and available financial resources of individuals. Governments and municipalities have made some provision, but it is inadequate and haphazard in contrast with the importance and seriousness of the problem. Something further is required, and it would seem as if that "something" should be provided, not in the way of paternal Government assistance, but in the direction of encouragement of building operations all over the Dominion.

How is this to be done? In the humble opinion of the writer of this article, by Governmental action bringing about a lowering in the present costs of construction. Governments in Canada, Federal and Provincial, own and control millions of acres of forest and timber lands. They have it in their power to reduce the cost of lumber to the people of Canada by developing those resources on a large scale and in a scientific manner. By so doing they can provide employment for thousands of laborers and artizans, develop the natural resources of the country, and add immeasurably to the wealth and prosperity of the nation.

The cost of transporting needed commodities from one part of the Dominion to another has risen enormously in recent years because of increased freight rates. Admitting that increased rates were necessary to enable the railways to pay their way, it would nevertheless appear to be the part of statesmanship to reduce those rates on lumber and other building materials in order to build up the country.

Cheaper lumber in the first instance, and a lower cost for transporting it to those who want it and will gladly use it if they can obtain it at a reasonable price within their means, would operate as an immediate and tremendous factor in bringing about renewed building activity. This would provide an enormous volume of employment, and artizans with steady work and wages would soon begin to build homes for themselves. It would mean greater prosperity, less unrest, better health. Under present conditions even those who can possibly afford to build defer doing so because of a belief that sooner or later costs of construction will fall, and they would then be faced with a heavy depreciation in the value of properties constructed at present high prices. They, therefore, continue to occupy houses, paying undue high rents for the time being, which houses would otherwise be made available at a more moderate figure for those who are not in a position to build for themselves.

Urges Canadians To Buy at Home

Drayton Says Idea is that Canada Cannot grow or Manufacture Things Properly.

Sir Henry Drayton, Minister of Finance of Canada, was given a civic welcome in the City Hall, Toronto, by the Mayor and officials who were his colleagues when he was corporation counsel for Toronto, and addressed the Women's Canadian Club and the local Council of Women in Convocation Hall, University of Toronto. Sir Henry appealed to the ladies to help to keep the Canadian dollar working at home, instead of in the United States, where it was at such a heavy discount. Evidently having in mind recent statements by prominent Toronto ladies to the effect that a number of Canadian manufactures were inferior to manufactures imported from the United States, Sir Henry, leaning forward on a desk in front of him and speaking confidently to the audience said:

"You have an idea not only that we can't make anything properly in Canada, but you have the extraordinary idea that we can't grow things properly in Canada."

As to Canadian manufactures not being satisfactory, Sir Henry said: "Wouldn't it be a good thing for us if we feel that our manufactures are not what they should be, to examine them and see that they are made right?"

Sir Henry paid considerable attention to the importations of fruit and vegetables from the United States into Canada, which was called a great agricultural country and he said that in the past eleven months Canadian imported $29,965,000 of fresh and canned fruits. "Ought it to go on?" he asked. "Can't you wait until you get your own strawberries, your own tomatoes? Niagara grapes were pretty good, he said, yet this country imported 6,627,853 pounds of grapes in the last eleven months.

Among other importations touched upon by the minister of finance was American soups, which were advertised in American, not Canadian magazines, and he asked: "What kind of advertising do you think all this is giving agricultural Canada in trade statistics?"

13,100 French Homes Rebuilt.

— Since the end of the World War 13,100 homes have been rebuilt in France, 178,500 repaired and 46,570 other houses are in use temporarily.

A Better Table Drink

INSTANT POSTUM

Made instantly in the cup by adding hot water — no delay and no waste. Delightful and satisfying in flavor, with none of the harm that sometimes comes from tea or coffee.

"There's a Reason"

Sold by grocers everywhere!

Leg that Wouldn't Heal

"Ever since a boy of fourteen," writes Mr. John Redmond, of West Brampton, Que., "I had trouble with a bad leg. I used many remedies. Though some appeared to heal the ulcer for a while, it always broke out again and was as bad as ever. This last time I suffered continuously for nine years, and the old remedies had absolutely no effect.

"The limb was in an awful state when someone advised me to get Zam-Buk right away. I had only used this herbal healer a few days when I began to see great improvement. So I continued the treatment, for even Zam-Buk needed time to have complete effect. However, I am glad to tell you that it was only by the aid of Zam-Buk that my leg was eventually thoroughly healed. Never a sign of the ulcer since."

Only Needed Zam-Buk

50c. box, all dealers.

Another Ancient Civilization.

Ruins recently discovered in the vicinity of El Perote, State of Vera Cruz, reveal the existence of an ancient civilization hitherto unknown. Idols discovered are neither of stone or clay, but of a curious bright substance heavy and looking like tin.

CHILDHOOD INDIGESTION

Nothing is more common in childhood than indigestion. Nothing is more dangerous to proper growth, more weakening to the constitution or more likely to pave the way to dangerous disease. Fully nine-tenths of all the minor ills of childhood have their origin in indigestion. There is no medicine for the little ones to equal Baby's Own Tablets in relieving this trouble. They have proved of benefit to thousands of homes. Concerning them Mrs. Jos. Lunette, Immaculee Conception, Que., writes: "My baby was a great sufferer from indigestion, but the Tablets soon set her right and now I would not be without them." Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Coal Industry in Saskatchewan.

The coal mining industry in Saskatchewan gave employment for the year ending March 31st, 1921, to 3,400 men. There were forty-five mines in this district under operation, and the total output of coal was 334,389 tons.

Drives Asthma Before It. The smoke vapor from Dr. J. D. Kellogg's Asthma Remedy gives asthma no chance back in. Our experience with the relief-giving remedy shows how actual and positive is the succor it gives. It is the result of long study and experiment and was not submitted to the public until its makers knew it would do its work well.

A Federal Research Bureau

Bill Providing For This Will Be Fathered by Sir George E. Foster

Provision for steps to be taken toward the equipment of a federal research institute on somewhat the same basis as the bureau of standards at Washington, will be made in a bill to be introduced in the house by George Foster, minister of trade and commerce.

The provision of a research bureau at or near Ottawa has been urged upon the government during the last two sessions by the honorary and advisory council for industrial and scientific research. It has been urged by the council and by the members of the special parliamentary committee on scientific research that the establishment of a research bureau here was absolutely necessary if Canada was to take her proper place in industrial and scientific development. The proposals which were laid before the government called for an expenditure of about a half a million dollars for buildings and equipments, but it is understood that this estimate has been somewhat modified and that the initial outlay would not be more than $200,000 for the first year.

The Crux of the Trouble.

The time is not one for widening the gap between employers and employed by frothy appeals to class-war, but for drawing them together on a basis of greater mutual frankness, in order to save the industries in which they have a common interest. We are still of opinion that the crux lies in output rather than in wages. The best way for the workers to avoid wage reductions is for them to study the ways of improving their output up to the level of wages now paid.—London Daily Chronicle.

For Irrigation Project.

The Calgary office of the Canada Land and Irrigation Company has received word from the office in London, England, that satisfactory arrangements have been made for financing the construction programme of the irrigation project in Southern Alberta, involving an expenditure of $1,500,000.

Yes, the moon and a woman's heart are constantly changing—but there's always a man in them.

Russia is the only great gold producing country in Europe.

DRINKS FOR THE CHILD

BY LORETTO C. LYNCH

An Acknowledged Expert in All Matters Pertaining to Household Management.

A mother writes to say it is all very well for dieticians to tell mothers that their children must never have a drop of tea or coffee, but that children get tired of cocoa.

For a change, give them Cambric tea. Half a cup of milk is mixed with half a cup of boiling water. A little sugar is added and the youngster sips his tea along with the grown folks who are perhaps indulging in Orange Pekoe.

The cereal coffee on the market—and there are several varieties—are good for children and most acceptable to the palate if properly made. Read the directions carefully and then proceed to follow them accurately.

Sometimes a child will take hot malted milk when it is flavored with cereal coffee when it may refuse it if unflavored. Malted milk may be mixed with either hot water or scalded milk. It is good cold as well as hot. Cold malted milk is often accepted by a child if a generous spoonful of flavored ice cream is well mixed into it.

Hot lemonade for the last meal in the evening may be very properly given. It is so much better than tea or coffee. Squeeze half a lemon into a strainer set over a saucepan. Add one level tablespoon of sugar and one-half a measuring cup of water. Boil for one minute. Pour into a mug. Add a little cold water to cool for drinking.

Grape juice, either hot or cold, is suitable for children. A little grape juice added to a lemonade gives it a different turn.

Orangeade, also, is good for children.

Of course, children should learn to drink several glasses of water a day. Make the water hot if you must, but give the child water.

If you live where fresh pineapples are fairly cheap, you can enjoy a drink that will promote good digestion. Prepare a pineapple and crush the fruit into a bowl. Sprinkle lightly with sugar and let stand. Collect the juice and dilute it with hot or cold water. The drink may be made from canned pineapple, but it is not so valuable to digestion as when made from the fresh fruit.

Forage Crop Competitions.

Carrying out one of the recommendations of the Better Farming Commission, a series of co-operative experiments will be undertaken in Saskatchewan in the growing of crops for forage. These experiments will take the form of competitions.

ADVICE FOR BACKACHE

When stooping hurts, when lifting and bending causes distress that's the time to rub in lots of "Nervoline." Usually a couple of applications brings grateful relief. No liniment more soothing, more certain to kill muscular, rheumatic, or sciatic pains. Thousands of homes rely on good Old Nerviline for cramps, colic, dysentry and external muscular pains. Large 35 cent bottles for sale everywhere.

World's Highest Mountains

Andes Have Greatest Number of High Peaks.

The Himalayas contain the tallest mountains in the world, but it is in the Andes of South America that are to be found the greatest number of peaks over 20,000 feet in height. In Bolivia are the Cordilleras de la Paz, of which twelve peaks, altogether, tower more than four miles towards the sky. Farther north, in Ecuador, which are more than 10,000 feet in height, 138 over 18,000, seventy-nine over 19,000, and forty-two over 20,000 feet. The four biggest all exceed 23,000 feet. The Andes possess another record, in the shape of the highest road in the world. This is the famous Aroya Road, in Peru, which pierces the mountains by the Crucero Tunnel at a height of 15,654 feet. This is almost the same level as the topmost summit of Europe's highest mountain, Mont Blanc.

De We Need Oil Development?

Canada bought from the United States in February last, 23 million gallons of crude oil; 11 million gallons of fuel and gas oil; 2 1-4 million gallons of kerosene; nearly half a million gallons of lubricating oil; and 3 million gallons of gasoline. Nearly 40 million gallons in all.

The women of Egypt have cast aside their seclusion and are demanding freedom from imprisonment in the harem.

Ask for Minard's and take no other.

USE SLOAN'S TO WARD OFF PAIN

You can just tell by its healthy, stimulating odor, that it is going to do you good

"IF I only had some Sloan's Liniment!" how often we've said that! And then when the rheumatic twinge subsided—after hours of suffering—you forgot it!

Don't do it again—get a bottle *today* and *keep it handy* for possible use tonight! A sudden attack may come on—sciatica, lumbago, sore muscles, backache, stiff joints, neuralgia, the pains and aches resulting from exposure. You'll soon find warmth and relief in Sloan's, the liniment that *penetrates without rubbing*. Clean, economical. Three sizes—35c, 70c, $1.40

(Made in Canada)

Sloan's Liniment Pain's enemy

The British Family

British Unity Not a Sham But Is a Reality.

We have no fears as to the loyalty of the Dominions to the Empire, any more than we have of the Empire's loyalty to the Dominions, for although matters may arise causing friction between them such will be family quarrels which do not affect the family unity. If other peoples would remember that most of the Dominions are permeated with our blood and that the bond is not a bond of Imperial conquest, but of family relationship, they would realize that British unity is not a sham or veneer, but is a reality which forms in fact the grain in our oak.—Singapore Free Press.

Explorer Is Honored

Stefansson Gets Medal For Services Rendered to Canada.

Vilhjalmur Stefansson, the Canadian explorer, has been awarded the Founders' medals of the Royal Geographical Society, London. Mr. Stefansson is at present on a lecture tour in the United States, and he received a despatch at El Paso, Texas, from the secretary of the society, Arthur Harr Hicks, advising that His Majesty the King has approved of the award for his distinguished services to Canada in the exploration of the Arctic Sea. The Founders' medal fund was established by King William IV. in 1831 to encourage geographical science and discovery.

Why suffer from corns when they can be painlessly rooted out by using Holloway's Corn Remover.

Where Things Are Cheap

Money Has Great Purchasing Power In New Russian Republic.

If you want to buy a quart of diamonds for a dollar or two, go to Tiflis, writes a correspondent. Tiflis is the capital of Georgia, one of the new republics that have risen in the Caucasus on the ruins of the Russian empire. The value of the Georgian ruble is worth hardly anything at all. But the dollar has such abnormal purchasing power in this nation of lost ideals that it seems less like money than magic. You can get a fine dinner in Tiflis for 10 cents and rent a room in the best hotel for $1 a month. The Bolsheviki have ruined Georgia. They have killed industry and trade and consequently the value of the native ruble. The swarms of refugees from Russia have sold their most precious possessions to Tiflis merchants for food and clothing until the stores of the city have become stocked with diamonds and pearls and all kinds of precious things which were paid for perhaps with a plate of beans or a pair of socks.

Minard's Liniment Lumberman's Friend

A Famous Hat

Napoleon's Chapeau Among Relics For the Waterloo Centenary.

The hat that Napoleon wore at the battle of Waterloo, will be among the relics of the great Corsican to be displayed at the Arch de Triomphe, when the 100th anniversary of the Emperor's death at St. Helena, will be celebrated.

In the route that followed the crushing of the Imperial Guard, Napoleon came very near being captured by Blucher's Uhlans, leaving the farm at Hougemont a few minutes before the Uhlans arrived. Fleeing through the night in a downpour of rain, Napoleon's hat suffered greatly and when he reached Paris on the morning of the 20th of June, he sent the hat to his hatters at the Palais Royal to have it repaired.

Events precipitated with such rapidity that Napoleon left Paris before the hat was repaired and it remained with the hatters, who presented it to the Museum at Sens where it is still.

At the burial of an English judge recently a man whom he had sentenced to imprisonment placed a floral tribute on the grave.

Too many men in the country vote as they pray—and they never pray unless it is to ask a personal favor.

A Gruesome Paradise

Russia Dying Before the Eyes of a Helpless World.

After a little over three years of Soviet rule Russia lies dying before the eyes of a helpless world. What was to have been the triumph of Marxian Socialism has become a disaster, which has involved in mental and physical suffering many millions of human beings, besides sweeping away all the foundations upon which their prosperity rested. When Lenin, Trotzky and Chicherin seized the reins of power towards the close of 1917 they proclaimed a Communistic Government with a Constitutional Assembly—which has never assembled from that day to this—in which 'the last word as well as the first word would lie with "the workers." At last the great masses of Russia, whether living in the towns or engaged in various agricultural pursuits in the countryside, were to come into their own. What has been the sequel?—London Daily Telegraph.

A Divorce Granted

After many years of patient suffering, you can be divorced from corns, you can get rid of them completely by applying Putnam's Corn Extractor. This wonderful old remedy acts in 24 hours and never fails. Refuse a substitute and remember "Putnam's" is the only Painless remedy. 25c everywhere

Farm Products of B.C.

The British Columbia minister of agriculture, Hon. E. B. Barrow, announces that the value of the farm products of the Pacific province last year exceeded sixty-eight million dollars. The minister adds that not more than 15 per cent of the area capable of cultivation is occupied.

Minard's Liniment Co., Limited.

Sirs,—I have used your MINARD'S LINIMENT for the past 25 years and whilst I have occasionally used other liniments I can safely say that I have never used any equal to yours.

If rubbed between the hands and inhaled frequently, it will never fail to relieve cold in the head in 24 hours. It is also the best for bruises, sprains, etc.

Yours truly,
J. G. LESLIE,
Dartmouth.

Hawaii Using Volcanoes

Scientists Claim Volcanic Gases Have Limitless Possibilities.

The volcanoes of Hawaii, whether dead or alive, are working for, or are going to be made to work for the people. Honolulu has just tapped the extinct crater of Paiolo, overlooking the city, and is getting therefrom 2,000,000 gallons of drinking water daily. Hilo, on the island of Hawaii, is raising a fund to tap the active volcano Kilauea and utilize the tremendous volume of gases there for industrial and other purposes. Scientists say that pentup volcanic gases have limitless possibilities from an industrial and power standpoint, while they also contain all the food elements necessary to sustain the human body—carbon, nitrogen, hydrogen and lime.

Hennessey's Clock.

Hennessey had bought an alarm clock. He took it home and wound it but failed to get results. He tried to open it to get at the starter, but failed. Finally, disgusted, he threw it in the corner, and when it struck the floor, the back fell off. With contrition in his heart, Hennessey picked it up and as he did so a dead cockroach fell out.

"No wonder the thing wouldn't go," Hennessey moralized to himself. "How could it when the motor-man was dead!"

In English law there is no definition of an accident.

TROUBLED WITH ITCHY ECZEMA

In Rash On Face And Limbs. Cuticura Heals.

"I had been troubled with eczema on my face which took the form of a rash. Later it broke out on my limbs and they itched very much, causing me to scratch them until they were bleeding. The rash would often keep me awake at night.

"I tried some remedies, which failed, and then thought I would try Cuticura Soap and Ointment. It was not long till the rash began to disappear, and I used three cakes of Soap and four boxes of Ointment, which healed me." (Signed) W. M. Hymers, Paris, Ont., Sept. 12, 1919.

Cuticura Soap to cleanse, Cuticura Ointment to soothe and heal.

Soap 25c. Ointment 25 and 50c. Sold throughout the Dominion. Canadian Depot: Lymans, Limited, St. Paul St., Montreal. Cuticura Soap shaves without mug.

Baulky Horses

What to Do and What Not to Do to Prevent and Overcome Trouble.

It is doubtful if any horse is a born baulker, that vice generally being acquired through mismanagement when young. It is no exaggeration to say that numberless even tempered horses have been absolutely spoiled by overloading and over-driving before the muscles of the shoulders are seasoned to the pressure of the collar. Young animals should never be expected to pull a load when first broken. The task should be gradually increased as the horse becomes accustomed to work, and gains confidence as his shoulders harden. In all cases a man must be watchful, and see that his horse, especially if young, is not getting winded or showing signs of overfatigue by breaking out suddenly into a heavy sweat. Before he stops of his own accord, pull him up with a sharp "whoa," lift the collar, and let his shoulders cool for a minute or two; do something to the harness while he gets his wind. By doing this the animal goes freely again, and is not cowed. If the shoulders are over-heated and tender, and he is out of wind, violent means to make him go render him frightened, then obstinate, and thus a baulker is made.

Western Produce Exchange.

A produce exchange has been formed at Winnipeg to handle butter, cheese, cream and poultry. Operations are to be begun at once. Quotations on these commodities will be received from similar exchanges in the large cities of Canada and the United States.

Good seeds are uniformly bright colored, whereas seeds that have been exposed to moisture, or that are dead, are duller and darker in color.

ASPIRIN

"Bayer" only is Genuine

BAYER MD

Warning! Take no chances with substitutes for genuine "Bayer Tablets of Aspirin." Unless you see the name "Bayer" on package or on tablets you are not getting Aspirin at all. In every Bayer package are directions for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve tablets cost few cents. Druggists also sell larger packages. Made in Canada. Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

The Right Tires, to suit your car and the roads you travel

If your car is a Ford or Chevrolet, Gray-Dort or Overland, the DOMINION "Grooved" or "Nobby" Tread give you non-skid, non side-slip Tires of consistent quality and proven mileage. Or—you may find that DOMINION "Chain", "Grooved" or "Nobby" Tread on the rear wheels and DOMINION "Plain" Tread on the front, are the ideal combination for comfort and mileage.

If you drive a heavier car like the Studebaker, McLaughlin, or Packard, you will have the utmost satisfaction with DOMINION "Royal Cord" or "Nobby" Treads—the supreme achievements in tire building.

The best dealers throughout Canada have DOMINION TIRES, DOMINION INNER TUBES and DOMINION TIRE ACCESSORIES.

DOMINION TIRES ARE GOOD TIRES

After house-cleaning freshen up your floors with Kyanize

Don't use a floor finish which will leave unsightly worn spots after a little wear. Kyanize is made especially to stand the scuff and tread of heavy shoes, without cracking, peeling, or turning white. It is a *stain* finish, instead of a mere mixture.

Kyanize also makes a beautiful, sanitary, most durable finish for furniture and all woodwork about the house.

Seven artistic colors, and clear; also white enamel

Come in and get a small can of Kyanize and give it a trial. The makers guarantee it absolutely, and so do we.

OFFICE OF TOWN AND DISTRICT

Local News.

The weekly half-holiday commences on Thursday, May 12 at 12 noon, and will continue every Thursday afternoon up to and include September 22nd

Arbor Day in Alberta has been fixed by order in council for Monday, May 9th

Beaver are plentiful in the river, and the busy little animal can often be seen on the banks, south of the bridge.

The fishing season opens on the 15th. This is on a Sunday, but it is to be hoped our enthusiastic anglers will have patience for one day.

A movement is on foot in several districts to exterminate the crow. Edmonton sportsmen are combining with the farmers and organizing "Crow Shoots," when parties will make excursions into the country with their guns to wipe out the black flocks which are doing so much harm to the sown grain in the spring.

A start has been made with the erection of Sylvan Side schoolhouse. The building will be erected some five miles south-east of town. A school has been badly needed in that "neck of the wood," and settlement has been delayed. But now, just watch the newcomers come trooping forth: two by two and more and more.

Is there going to be a half-holiday during the summer months? Last year the town council passed a by-law giving authority, but at present the matter hangs fire. While the nature of some callings preclude closing, still the majority of the business places can do so, and as the vast majority of our citizens are in favor, then the Herald believes that a half-holiday is in order. Let the people, young and old, enjoy themselves if they have a mind to. Only a short time in this vale of love, hope, fear or tears, and then the long, long hereafter.

High winds have ruled of late, but the climax appeared to come on Monday evening when a shower of rain fell. Some of the farmers have been feeling a bit anxious, and a good rain would be welcome.

A movement is on foot (or in the air?) to have a band stand erected in town. This is certainly a step in the right direction. We have a band second to none in any of the small towns, and they do deserve some consideration.

A troupe of local Coon Minstrels will put on a show in the Empress Theatre on Friday, May 13, and a very good programme is guaranteed. This entertainment is on behalf of the Baseball Club, and it is hoped the boys will get a boost along.

A meeting of the Women's Institute will be held in the Union Church parlors on Wednesday, May 11, at 2.45 p.m.

A dance will be held in Brookona Hall on Friday, May 13th. Fine music and a good time. All are welcome.

Mrs R. Thomson and son have gone to Ryley where they will stay for a short time.

Harry Strenes, who has been in poor health for some time, was taken to the Lacombe hospital on Sunday.

Mrs Isenhouser is up from California, visiting her daughter, Mrs Arthur Mullins. She may stay the summer.

Mr and Mrs J. W. Woods have moved out to their farm in the Chesterwold district, where Mr Woods and son, Roy, expect to do extensive breaking.

CLINE.—To Mr and Mrs Dick Cline, a son.

FYSTRO.—At Millet, on the 23rd inst., to Mr and Mrs Knute Fystro a son.

GRIFFITHS.—On Friday, May 27, to Mr and Mrs L. Griffiths, a daughter.

Garments of all kinds cleaned and pressed. Specialist in chemical dry cleaning.—A. P. Veilleux, Telephone 81, Ponoka

Dr. Budd, dentist, announces that his office will be closed Thursday and Friday of each week until further notice.

COON MINSTREL SQUIBS

Jazz band with local Coon Minstrels will appear in the Empress Theatre on Friday, May 13.

Come and hear the famous Scotch "Nigger," Rastus MacGregor.

"Pray for the lights to go out," May 13th—Jack Johnson.

Deacon Thomson wants to know—"How are you going to wet your whistle when the whole world goes dry."

Al Johnson will ask you to "Bring back home wonderful days," Friday, May 13th.

Craff Connelly will make you homesick with "Kentucky Blue"

See Vess Osman in the soft shoe dance on Friday, May 13.

Come and hear Geo. Washington Brown say—Amen!

CHURCH NEWS

UNION CHURCH

Sunday, May 8.—11 a.m., Mother Day Service, "The Fifth Commandment." 7.30 p.m., "The Imperative Task." Bright singing and a cordial welcome. Country people make use of your cars to come to church. You have a better chance now of enjoying the privileges of Christian worship than ever you have had.

Regular meeting of Ladies' Aid in church vestries on Friday at 3 o'clock. Important business. All members urged to be present.

Annual meeting of the Official Board will be held in the vestries on Wednesday, May 11th, at 8 p.m

BAPTIST

Services for May 8th.—Brooks, divine service at 11 a.m.; Sunday school at 12, Ponoka, 7.30, subject, "The Slave's Girdle." Interesting service. Special singing. The homelike church extends to you a hearty welcome.

The Mission Circle will meet at the home of Mrs P. A. McKelvey on Thursday, May 5th, at 3 p.m. A cordial invitation is extended to all ladies.

AMONG THE DAISIES

By E. L.

Written Exclusively For This Paper

"And so, Nellie, you have made up your mind to go to the big city?"

Nellie swung her wide brimmed hat to and, fro' ere she replied:

"Yes, Ned. I want to be independent to earn money for myself, and now that Aunt Maria has this friend of hers coming, it's a good chance for me to get away."

Ned, big and brawny, with his shirt open at his pillar-like throat, a very son of the soil, could not forbear a slight smile as he looked down at the five feet of independence before him, who was about to go out and make her mark in the world.

Nellie was an orphan who had been brought up by her aunt, but for some time now her soul had chafed against the restraint of her quiet country existence. She was twenty-one and she wanted to go to the city.

And so, with a gay smile on her lips, standing amongst the daisies in the sunlit field that beautiful June afternoon, Nellie said "good-bye" to Ned who had loved her all her life. Ned was a prosperous young farmer, but he seemed very prosaic to Nellie who had all sorts of visions of being a clever business woman and to whom the life of a farmer's wife did not in the least appeal. And Ned, whose heart was aching, said no word.

* * * *

The weeks in the city passed slowly. The little room for which Nellie thought she had to pay a small fortune was hot and stuffy and she could not help remembering the clean white cottage she had left where the rambler roses climbed, and yes, sometimes as she struggled with the mysterious dots and dashes in the Pitman system, the beautiful green fields white with daisies rose before her. But she was proud and said no word, and in the country they thought she was happy. They had no idea of how lonely a little country girl of twenty-one can be in a large city.

* * * *

And then one day Nellie took sick and for weeks she lay at the point of death. But youth and a good constitution triumphed. Ned and Aunt Maria travelled up to the city to see the "little lass."

"P'raps," ventured Aunt Maria hopefully, "she may be willin' to come home fur a spell, eh Ned?"

"I shouldn't wonder," replied Ned, setting his lips in a firm line, "I shouldn't wonder."

* * * *

And when Nellie saw Ned she knew that she was not cut out for a career, that she was just a little country blossom which would quickly fade if transplanted elsewhere, and that she could, after all be quite happy in a farmhouse.

"Oh," she said, as they were leaving the hospital, "where are you taking me, Ned?"

"We're taking you home, my girl,"

Cook's Cotton Root Compound.

A safe, reliable regulating medicine. Sold in three degrees of strength—No. 1, $1; No. 2, $3; No. 3, $5 per box. Sold by all druggists, or will prepaid on receipt of price. Pamphlet. Address: THE COOK MEDICINE CO., TORONTO, ONT. (Formerly, Windsor.)

Ned's voice was gruff, but his heart was full and he could hardly suffer himself to look at that little pale face which had been so blooming that last day they had talked among the daisies.

"Yes, dearie," chirruped Aunt Maria, "the city don't 'pear to have agreed with ye, but if ye have a rest and pick up ye can come back next summer."

* * * *

Next summer came and on a lovely June day Nellie and Ned again stood in the field of daisies.

Ned stooped and picked one of the white blossoms and brushed it against her soft cheek.

"Are you going to the city this year, Nellie?"

"Maybe!" replied Nellie mischievously, showing a provoking dimple as she smiled.

"And maybe not!" replied Ned masterfully, drawing her closer to him.

"Maybe not," he went on. "Instead I think you and I are going to be married and live in the big farmhouse down the lane. You were never meant for the big, hungry city, but just for a sweet country daisy."

As Nellie made no reply to this we presume that Ned was right.

Nervous Headaches, Dizziness

COULD NOT SLEEP

Wherever there is any weakness of the heart or nerves, lingering energy or physical breakdown the use of Milburn's Heart and Nerve Pills will soon get back a healthy strong system.

They renew lost vitality, build up the strength, increase mental activity, give nerve and brain power, improve the appetite and make rich, red blood, thus banishing nervousness, headaches, sleeplessness, nervous prostration, heart palpitation, shortness of breath, faint and dizzy spells, smothering feeling, anaemia, general debility and all troubles arising from a run down system.

Mrs. M. Damgard, Youngs Cove Road, N.B., writes:—"I was bothered very much with my heart and nerves; had nervous headaches and dizziness, could not sleep nights and my appetite was all gone. I was almost on a nervous breakdown when a neighbor told me to try Milburn's Heart and Nerve Pills. This I did, and before I had the second box used I was better."

Price 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

War With Wild Beasts

Many People In India Are Killed Every Year.

The struggle between human beings and wild animals in India seems to be constant. Last year fifty-five persons were killed by elephants, five by hyenas, 109 by bears, 350 by leopards, 853 by tigers, and 688 by boars and other animals. Poisonous snakes claimed no fewer than 22,478 victims. More than 19,000 wild beasts of various kinds were destroyed and 91,000 snakes were killed. High floods killed off many of the small animals that are ordinarily the prey of wild beasts, and this probably accounts for the attention that tigers and other large animals have given to their human neighbors.

Rub it in for Lame Back.—A brisk rubbing with Dr. Thomas' Eclectric Oil will relieve lame back. The skin will immediately absorb the oil and it will penetrate to the very seat of the trouble and bring speedy relief. Try it and be convinced. As the liniment sinks in the pain comes out and there are ample grounds for saying that it is an excellent article.

For Relief Of Unemployed

Large Amounts Are Obtained From the Federal Government.

That up to April 23, $133,093.42 had been paid by the Dominion Government to municipalities throughout Canada for relief of unemployed, was stated in the Ottawa House recently. Winnipeg led the list with $51,003.49 and Vancouver next with $49,457.00.

The municipalities and the amounts paid to them as the Government share of the relief plan, follow:

Amherst, N.S., $830.54; Montreal, $3,811.03; Winnipeg, $51,003.49; Moose Jaw, $7,505.10; Saskatoon, $1,320.37; Regina, $10,540.24; New Westminster, $112.50; Vancouver, $49,457.00; St. James, Man., $847.47; West Kildonan, $316.43; Burnaby, B.C., $140; Nelson, B.C., $105.51; Prince Rupert, $1,558.45; the district of South Vancouver, B.C., $5,519.28; and Cumberland, B.C., $26.21.

Increased Use Of Drugs

Drug Addicts Reported on Increase in Vancouver District.

Indicating an increase in the use of drugs in Vancouver during the last few years, the annual report of the city health department shows that the number of examinations of drugs during 1920 was nearly double that of the year previous and more than five times as many as in 1917.

During 1920 the health department analyzed for the police department 2,148 samples of opium, morphine, heroin and cocaine. During 1919, the number was but 1,133. In 1918, 512, and in 1917, 429.

The habitat is the largest of the British family.

"Your Teeth"

By Rea Proctor McGee, M.D., D.D.S., Editor of Oral Hygiene.

GOITER.

Copyright, 1921, by Rea Proctor McGee.

In speaking of the diseases and infections of the body that arise from the teeth, it is not intended to give the impression that the teeth are invariably the cause of infection, but these cases are explained in order to show the results of neglecting mouths.

Until recent years we had not realized the danger of neglecting the mouth and teeth—because digestion was so seriously interfered with, by the inability to chew, and because appearance and distinct speech were ruined, and because pain of many kinds and of great intensity was a very frequent occurrence, and because broken roots and open cavities retained decomposing food and mucus, with a resulting bad breath. These were a few of the things that caused the more cultured people to have their mouths put in order.

The researches of the great institutions that are devoted to the study of disease have shown us that the results of neglected mouths are far more serious than we had at first believed; and there is just one way to avoid these serious results. That is to take care of the mouth in time.

Begin with the children, and if the child is trained to have its mouth in good condition and to know the comforts that follow a good mouth condition, this child will make very strenuous efforts, in later life, to have those same physical comforts.

One of the most embarassing as well as serious of the widespread diseases of this country—a condition that is becoming more and more frequent—is goiter, which is the enlargement of the thyroid gland which lies in the interior portion of the neck.

A swelling of this gland produces a very unsightly enlargement of the neck, many times causing a series of what is known as thyroidism.

Thyroidism is attended with sleeplessness (or insomnia), nervousness and excitability, twitching and rapid heart action.

It was found that in large numbers of goiters the infection in the thyroid gland was a certain bacteria that is found in abscess sacs at the ends of roots of diseased teeth in the mouth of the patient; and in many instances the treatment of the teeth, or the extraction of the teeth and curetting of the sockets, relieved the goiter entirely.

It is therefore advisable to have a careful X-ray examination of the mouth in all goiter cases.

Superstition of Sailors.

Old sailors believe ill-luck will surely follow if anyone even accidentally counts the number of persons on board ship.

It Will Prevent Ulcerated Throat.—At the first symptoms of sore throat, which presages ulceration and inflammation, take a spoonful of Dr. Thomas' Eclectric Oil. Add a little sugar to it to make it palatable. It will allay the irritation and prevent the ulceration and swelling that are so painful. Those who were periodically subject to quinsy have thus made themselves immune to attack.

The Old Gardener Says.

In your garden planning allow for liberal crops of all vegetables which can be canned for winter. Almost everybody cans peas, corn and string beans, but the fact is often overlooked that carrots and beets are really better when canned than when stored in the cellar. The only point is that they must be taken when small. This means, of course, that more of them must be planted. New Zealand spinach is another good vegetable to can and greatly relished when winter comes.

Percheron Horse for Okanagan.

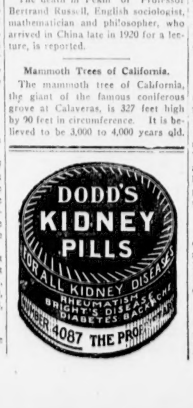
In order to obtain a better strain of horses, Okanagan farmers are importing many pure-bred sires. Recently, a syndicate of farmers paid ten thousand dollars for a prize-winning Percheron stallion.

English Sociologist is Dead in Pekin.

The death in Pekin of Professor Bertrand Russell, English sociologist, mathematician and philosopher, who arrived in China late in 1920 for a lecture, is reported.

Mammoth Trees of California.

The mammoth tree of California, the giant of the famous coniferous grove at Calaveras, is 327 feet high by 90 feet in circumference. It is believed to be 3,000 to 4,000 years old.



Naval Periscope For Skyscraper

New York Man Wanted to Enjoy the Harbor View From His Apartment.

"We Senators aim to oblige," said Senator New (Ind.), "but often there are demands that cause us to dust off our thinking caps. Instance a letter from a man in New York wanting me to ascertain where he could get a periscope cheap. It seems he has an apartment at the top of a skyscraper overlooking New York harbor and his idea was to insert a periscope in his apartment so he could take his ease in his library and yet enjoy the spectacle of incoming and outgoing ships.

"We discovered that the gentleman could have a perfectly good but obsolete periscope for $400, but that if he insisted on a brand new, ultra medium, top-hole first-class navy periscope, it would cost him a cool $18,000. That information was promptly transmitted—to the gentleman's satisfaction, I hope."

The Doughboys Know Best

American Soldiers Who Went With the British Through the Hindenburg Line.

There are some people who seem to be under the impression that in the World War we fought against Great Britain, and not on her side. But the American soldiers who went with the British through the Hindenburg line know better. They did not care whether they fought under an American, a British or a French commander. If only they might bring America's power to bear on the enemy in the most effective way. In the greatest enterprise that the world ever saw, the two nations were welded together in bonds, forged in the fires of war, which, it is hoped and believed, will never be broken. Our people have not forgotten, nor have our soldiers, and they are not likely to forget.—Indianapolis News.

Letters Of Recommendation

Tell the Truth But Rarely Tell the Whole Truth.

"Billy" Williams, United States Commissioner of Internal Revenue, says a lawyer told him once that "a letter of recommendation does not evidence a man's ability, but merely signifies the amiability of the writer." That is about as solid a truth as one will see in a day's walk. Every ready letter writer will agree to that. Many letters tell the truth about the subject for whom they are written, but they rarely tell the whole truth. If there are unpleasant facts about the bearer of the letter, the writer has been discreetly and courteously silent in respect to them. It is not his business to argue and analyze. It is his job to give a friend a lift.—Montgomery, Ala., Advertiser.

Antelope Becoming Scarce

Few of These Animals Now Remain in Canada.

Half a century ago countless antelope roamed the prairie of Canada, the United States and Mexico, today it is doubtful whether there are 15,000 of these graceful little animals in all this vast area, though in past years reliable observers have seen several thousand in a single day, says a writer in Conservation.

Mr. Thompson-Seton has estimated that, at the time of first settlement of the west, the range of the antelope covered two million square miles, and that there were no less than twenty million of these animals.

The rifle and the advance of agriculture have done their work. One writer, in describing the antelope herds of the "seventies," say: "The prairie seemed to vibrate with the galloping of these swift little creatures, and they were slaughtered to such an extent that their ourstretched carcases were piled in heaps like cordwood."

Oil Development in Alberta.

The development of Okotoks and Black Diamond oil districts will be undertaken by the Royalite Company, recently incorporated and capitalized at $1,000,000, of which, it is reported, $800,000 of stock is held by the Imperial Oil Company, and $200,000 by the Dingman interests. It is said that the Imperial Oil has contracted to spend $400,000 in developments of the properties.

Motor Boat For Police Patrol.

Owing to the growth of northern settlements, Provincial Police will patrol the Saskatchewan River between Prince Albert and the west Manitoba boundary by means of a motor boat capable of carrying 24 men. The departure is estimated to effect an economy, as these settlements have been policed overland at great expense. The boat will be put into the river at once.

Mount Everest, for some reason unexplained, has no native name, as most of the gigantic peaks of the Himalayas have, but was named after Sir G. Everest, who was the first director of the Indian Survey.

The number of flowers used in scent-making is legion, but three stand out before all others—the rose, violet and orange blossom.

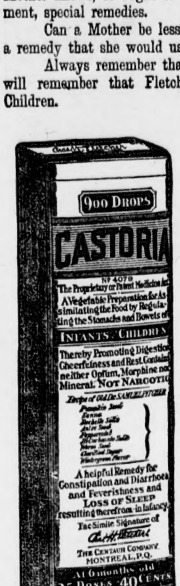
Baby Specialists.

THAT there are Physicians who specialize on Infant ailments you know. All Physicians understand Infant troubles: all Physicians treat them. It is his profession, his duty, to know human ills from the Stork to the Great Beyond.

But in serious cases he calls in the Specialist. Why? He knows as every Mother knows, or ought to know, that Baby is just a baby, needing special treatment, special remedies.

Can a Mother be less thoughtful? Can a Mother try to relieve Baby with a remedy that she would use for herself? Ask yourself; and answer honestly!

Always remember that Baby is just a baby. And remembering this you will remember that Fletcher's Castoria is made especially for Infants and Children.



Exact Copy of Wrapper.

Children Cry For

Fletcher's

CASTORIA

The False and the True.

Advertising by the use of large space, the expenditure of huge sums of money have placed on the market, have put in *your* home, perhaps, many articles that today have been discarded, as you will readily admit.

Do you recall anything that has more modestly appealed to the public than has Fletcher's Castoria: modest in all its claims, pleading at all times—and truthfully—for our babies?

The big splurg, the misleading claims may win for a time, but the honest truth-telling advertiser is like the old story of the tortoise that beat the hare.

Mothers everywhere, and their daughters, now mothers, speak frankly, glowingly, enthusiastically in praise of Fletcher's Castoria. Speak of it lovingly as a friend that has brought comfort, cheer and smiles to their little-one.

To them: to these true mothers no argument can induce them to set aside their bottle of Castoria, their old friend, that they might try even another and unknown remedy for babies. Then, would YOU think of going to YOUR OWN medicine chest to find relief for Baby's troubles? Can you not separate the false from the true?

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

One Of The Unconquerable

Man Paralyzed in Childhood Has Career Worthy of Admiration.

Joe F. Sullivan, formerly of Imboden, Ark., who was paralyzed in childhood, and who in spite of his serious infirmity struggled through school, edited a paper and became mayor of Imboden before he was 21, is now, at the age of 29, earning $7,000 a year as a writer and head of the Michigan Hospital School at Farmington, near Detroit, established with a million dollar gift from Mayor Couzens. There will be no steps to climb in the buildings, because the school is for cripples. Joe Sullivan's career is worthy of admiration.—Arkansas Methodist.

Old Auto Tire Useful.

A piece of discarded auto tire tubing cemented to the sole of the shoe will, it is said, outwear two leather half soles. This is easily done by roughing the leather with rasp or scraper, applying three coats of patch cement and a layer of cushion stock, to which is applied the cemented tubing as in the patching of a tube on the road.

Winner For Fourth Time.

S. Larcombe, of Birtle, Manitoba, has been declared winner of the Manitoba Free Press sweepstake prize in connection with the National Soil Products Exhibition held in Winnipeg last January. This makes the fourth time Mr. Larcombe has won the sweepstake.

Greater Love For Canadian Women

Canadian Born Men Select Native Born Wives for Most Part.

The Canadian born man holds greater love for the Canadian women than the women of Canadian birth does for Canadian men, all this according to the Dominion Bureau of Statistics report for 1920. Excluding the province of Quebec, the number of marriages recorded in the Dominion last year totalled no less than 56,637, including all registrations at Ottawa up to April 10, 1921. Of this number 6,200 Canadian born women selected husbands other than Canadian men, whereas 4,632 Canadian born men chose as their wives other than Canadian women, the total of such marriages being 10,882.

Of the 56,637 carriages in Canada last year (excluding Quebec) 29,104 took place in Ontario, or in other words more than half were solemnized in that province. A table shows the number of marriages in Ontario as follows: 1915, 23,506; 1916, 23,401; 1917, 21,499; 1918, 19,524; 1919, 26,328; and 1920, 29,104.

A real estate company of Birmingham, Ala., gives to every purchaser of a lot 20,000 feet of lumber with which to begin the construction of a home.

The Australian water lizard, which is three or four feet in length, walks upright on its hind legs when travers ing long distances on land.

France Bids For Olympiad

Paris Would Secure the Olympic Games for 1924.

Premier Briand of France states it is his earnest desire that Paris secure the Olympic games in 1924, and promised the moral and financial support of the government to that end.

Premier Briand has offered government support to the building of the stadium necessary in case the games are held in Paris, plans for which will be submitted to the international Olympic association at its coming conference at Lucerne, Switzerland, June 2.

Under the British army regulations no soldier is eligible for married quarters unless he is 26 years of age.

TO ASSIST THE FARMERS BY PLACING SETTLERS ON UNOCCUPIED LANDS

Managing Director of the Western Canada Colonization Association Discusses the Plans of the Organization.—Major-General A. D. McRae, C.B., Immigration Expert, Asks For Provincial Land Boards and for Stabilized Lists of Vacant Lands With Prices Good For a Reasonable Period.

As Mr. T. A. Crerar has said, population is the only possible solution of the National Railways problem. The simple fact is that neither Western Canada nor Canada as a whole can continue to "carry on" without a marked increase in the number of people on the land. The present sparse population of the three prairie provinces inflicts an unnecessary burden upon the settlers themselves, as it does upon the entire country. The larger the number of actual farmers on the soil, the more potent will their voice be in regard to such questions as freights, elevating, marketing and purchasing.

A number of far-seeing men have brought the Western Canada Colonization Association into being. The organization has no share capital. Under its federal charter it can make no profits. It is financed by voluntary subscriptions from public spirited citizens who have the progress and welfare of the country at heart. Its Board of Directors is made up of representative farmers and leading business men. Its purpose is to bring under production the unoccupied lands lying close to existing railways and held out of cultivation in the main by absentee owners.

Major-General A. D. McRae, C.B., who was recently appointed managing director of the association, is an experienced colonization expert, and in the plan drawn up by him the heartiest co-operation on the part of the prairie province governments is essential to the success of the project. He asks that each of the three administrations appoint a Provincial Land Board to provide the association with a fixed list of unoccupied lands at, prices good for a reasonable period. In his opinion little progress can be made with the difficult task of colonizing the west unless this request is complied with. He refuses to believe that any one of the provinces will forego its share of the prospective benefits to be derived from the grant fund raised by the Western Canada Colonization Association.

During the last few days a delegation, including Major-General McRae, Mr. M. A. Brown, of Medicine Hat, Vice-President, and other Directors of the Association, has waited upon the Manitoba, Saskatchewan and Alberta cabinets with a memorandum, set forth the suggestions of the organization. In each case the deputation was received by the premier and his colleagues. The memorial presented read as follows:

To the Honourable Mr. Premier and Ministers of the Council;

I thank you on behalf of the Directors of the Western Canada Colonization Association for this opportunity of meeting with you to consider the problem of colonizing lands in your province.

Before proceeding, I would like to state the mission of our association. Our organization is supported entirely by voluntary subscriptions from prominent Canadian individuals and corporations. Business interests in Eastern and Western Canada have subscribed a very large sum of money to an association whose aim is to assist in settling the unoccupied lands of Western Canada. This fact reveals a national realization of the urgent need for increased immigration to the land. Our undertaking in its very nature discloses an active sympathy with the people of the prairie provinces and their problems. Our whole object, as will be hereafter shown, is to better their economic position together with that of the whole Dominion.

To Settle Unoccupied Lands.

We seek no cash assistance from your government or any other government. Our association is a corporation without the power of gain. It cannot, under its charter, become interested in the sale of land on commission or for any other pecuniary consideration. We have no axe to grind except the public axe. Our sole purpose is to assist in the development of the western provinces and particularly in the placing of settlers on the unoccupied lands adjacent to the present railways. It is our desire to co-operate closely with all existing immigration agencies in efforts to avoid duplication and consequent waste of money and effort. By coordinating our efforts with those of the western provinces and the Dominion and by filling in the gaps in colonization work which government parties cannot bridge, we hope to be an active force in a great forward movement.

We are here today with a simple request. We merely ask that you provide machinery enabling our association to co-operate effectively with your government in solving a problem, the solution of which, when all is said and done, rests squarely upon the shoulders of the three prairie provinces. The whole economic future of the country depends upon the manner in which this responsibility is discharged.

Uniform System Needed.

With the disappearance of the free homestead land settlement became a difficult affair. So long as settlers could rush into the country and with the assistance of the Dominion Land Agent find, within reasonable distance of the railway, good free land, little attention was had to them. The whole situation is now changed. Most of the land has been alienated from the crown. The unalienated lands are held largely by non-residents. Some uniform method of dealing with such lands must be adopted or they will not be available in a permanent and practical way for incoming settlers in large numbers.

The present haphazard method of listing lands for sale, with the probability that the owner may change his mind at any time (usually when a purchaser is in sight) makes it quite impossible for any private agency to undertake colonization on a big way.

A Fixed Price List Necessary.

The great need is a plan under which the unoccupied lands can be brought into the market in a systematic manner—a plan including the issue of maps and price lists holding good long enough for negotiations with prospective settlers, so that such settlers may come in, look over the land and close the deals before the page is jumped on them. We feel that the efforts of individuals or corporations to accomplish this is a large way are futile. In our judgment neither of them can compile for sale lists of unoccupied lands aggregating an acreage sufficient to justify the expense, with a permanency that will be found effective. If we are going to make satisfactory progress with the settlement of our unoccupied lands we must put the sale of such lands on a definite business basis. The central agency proposed by us will have its subordinates throughout the length of resident landowners. It will offer them an active medium through which they may list their holdings.

Snares Settlement Costly.

We have in mind the burden which the lack of proper direction of settlement has already inflicted on the western provinces. Such absence of direction has meant scarce settlements and otherwise unnecessary and economically unjustifiable public expenditures on branch railways, roads, schools, churches, telephones, etc. Not overlooking some unfortunate cases where settlement should never have been permitted, I feel that it will be greatly to the advantage of each of the western provinces to assume the direction of new settlers.

The Legislation Required.

I seriously believe that the success of our efforts to assist in the settlement of the unoccupied land in this province largely depends upon our being able to co-operate with and work through a properly constituted and effective provincial survey. We therefore desire to submit for your most earnest consideration the following legislation as in our judgment the minimum that will meet the situation and facilitate our endeavors for the public welfare:

(a) Establish a Provincial Land Settlement Board consisting of one director who will be responsible to and under the direction of the minister of agriculture.

(b) Require the owners of unoccupied land, upon receipt of notice, to file, within a given time, with the Land Settlement Board their application to purchase such land, together with terms thereon; such sale value (conditional upon the land still remaining unoccupied) to be good for a period of two years or thereafter until the owner withdraws same; provision being made to allow the owner one year's interest at six per cent. on valuation and a refund of taxes paid in case of sale cancelled after the expiration of the first year.

(c) Make such valuation the basis for the unoccupied land tax.

(d) Authorize the Land Settlement Board to appraise any unoccupied land on which the owner has failed to make the required return and where it deems necessary, to appraise any unoccupied land on which the owners' sale valuation and price are considered to be unreasonable and in effect a withdrawal of the land from settlement, the owner of such land shall be assessed double the unoccupied land tax by way of penalty.

(e) Require the non-resident owner of unoccupied land to appoint a duly authorized agent in the locality of his land, to whom purchasers may be referred. Require such owner to authorize such agent to effect sale on his behalf at the price and on the terms filed with the Land Settlement Board.

Work for the Land Board.

The foregoing recommendations are only what we regard as necessary to enable us to co-operate successfully with you. Once the Land Settlement Board has been established and its usefulness demonstrated, undoubtedly wide powers will be granted to it. The board will deal with all immigration problems in and for the province. Not only will it be the instrument through which you will carry on your provincial immigration efforts, it will also direct the immigration brought through all the various agencies at work in the west for development. It will direct the newcomers brought in as a result of the Dominion Government's efforts. It will afford a channel through which the drift of immigration that comes along "on its own" may be properly looked after.

Social Service for the Board.

The Land Settlement Board should also be able to render a most valuable service to the province by directing the new settlers in a general way into districts where their former agricultural experience is most likely to ensure their success and where their neighbors will offer them a congenial social environment. With the active support of the board it should be possible to maintain community organizations which will extend to the new settler and his family a hearty welcome and an entrance into the social life of the community. It is only by such means that the exodus of farmers from various districts can be stopped and the agricultural population be given that permanence of tenure which is essential to the proper growth and welfare of the country.

Internal Migration.

Furthermore, it would appear that the Land Settlement Board, through information it would possess, will offer you an organization especially qualified to handle the transfer of settlers within the province.

In addition to dealing with the land coming directly under its control and effective Provincial Settlement Board will have a very powerful indirect influence on agricultural development through the large acreage it owns and will be a safeguard in protecting settlers from paying unjustifiably high prices for wild land. The operations of the board cannot act otherwise than as a stimulus to the sale of unimproved land to actual settlers at reasonable prices. It undoubtedly will result in bringing a big increased acreage under permanent production and incidentally in lessening the burden of taxation on the existing population.

An Established Principle.

The proposed legislation making the owner of unoccupied land his own assessor will merely follow the principle observed in the income tax return. This plan, if adopted, will render feasible the early issue of maps and price lists of unoccupied lands for sale in the province. Without such fixed lists no adequate land settlement policy can be carried.

At b st it will require some months to compile maps, price lists, etc. A minimum period of two years' interval is therefore necessary. The additional consideration (interest for one year and a refund of taxes paid in the interval) allowed to the purchaser at sale is made after the first year, makes this two year provision equivalent to twelve months' listing which is the common practice.

A Just Proposal.

As to the penalty proposed, i.e., doubling the unoccupied land tax; I am sure it will be the concensus of public opinion that the man who will improve his land or offer it for sale for actual settlement at a reasonable price, should pay something for the "community development" carried on by his neighbors.

In requiring the non-resident owner of unoccupied land to appoint an agent in the locality of the land you will be merely supplying a necessary link in the chain between the settler and the owner, and at the same time making use of the local man who has the knowledge and experience necessary to properly look after the newcomer. In addition to the outlay involved in establishing and carrying on the detail work of the proposed Land Settlement Board, the province must also expect to bear the expense of getting out maps and price lists of its unoccupied land, as well as literature by the thousand same. All of this is constructive work and will be found very advantageous to the province.

Other Activities.

Moreover, if your province is to benefit, as it should, from the efforts of the Dominion Government and of voluntary associations such as the one I am permitted to direct, you should have two or three foreign offices of your own. In connection with these offices, particularly the one in United States, the value of attending during the year fifteen to twenty American fall fairs, has been fully established.

We anticipate that as our work in the United States and Great Britain develops opportunities will be offered to the western provinces to co-operate with us in furnishing "actual farmers" to carry on their work during the winter months. You may also wish to join in making other similar efforts destined to bring Western Canada to the door of the prospective settler. With such considerations in view we are sure that every province should not (through failure to provide funds) find itself in a position of inability to co-operate with our association. Our association contemplates an annual expenditure much in excess of the total immigration expenditures we are desirous for all the western provinces not together.

Will Benefit Present Farmers of the West.

The outstanding need of the west is more people on the land. Failing a far-reaching colonization effort a hopelessly handicapped population will continue to bear an undue burden of municipal, provincial and federal taxation. Under these circumstances your government can scarcely afford to pursue a policy of inaction regarding immigration.

In helping to establish satisfactory conditions for incoming settlers this association is working along lines which inevitably in the interests of those already on the land. It goes without saying that questions relating to freights, marketing, elevating and purchasing are common to all those engaged in agriculture.

To put it in another way this association proposes entering into partnership with the prairie provinces; it will be identified with the successful settlement of farmers on the soil; as a natural consequence the welfare of agriculture throughout the west must necessarily command the support of the organization.

The co-operation efforts outlined above will necessitate some expenditure for land settlement work. In view of the fact that the unoccupied landowners in your province are now obliged to pay a special tax which yields no revenue, though bringing in area annually, it would not appear unreasonable that a sufficient amount of this tax should be set aside to assist in colonizing such lands.

The legislation suggested, in our judgment, if duly enacted and enforced will assure a permanent price list of the unoccupied lands and a satisfactory agency through which sale can be effected.

A Great Opportunity.

The day for big private colonization schemes would seem to be over. Under small colonizer finds the effort required too great, the expense too heavy and the return too uncertain. The area of the prairie provinces is so tremendous, the railways and their branch lines are so numerous that a collective settlement scheme is not practicable. Incoming settlers are to be located within reasonable distances of existing transportation facilities. Any successful colonization plan must deal with the individual settler.

Assistant to Vice-President

Given the opportunity to co-operate with and operate through an effective Land Settlement Board; given the line of continuity extending to the resident owner or the responsible local land agent; supplied with literature, maps and permanent price lists of unoccupied lands, I firmly believe the Western Canada Colonization Association can bring into the province a great number of the right kind of farmer settlers.

Respectfully submitted,
(Signed) A. D. McRae,
Managing Director.

C. E. Stockdill, Winnipeg, who is assistant to the Vice-President, Canadian Pacific Railway Western Lines.

Home Rule Act Will Be Applied Without Change

London.—In introducing the vote for the Irish office, in the House of Commons, Sir Hamar Greenwood, the chief secretary, expressed regret that since the last debate the Sinn Fein threat to newspapermen in Ireland had become more pronounced. He declared one of them had been obliged to leave the country under the menace of death.

Dealing with the police force, Sir Hamar said the auxiliaries had a special function which would be performed by no other force—a statement which brought ironical cheers from the Opposition. Sir Hamar asserted the auxiliaries had to go into the most disturbed areas and said that the order from Sinn Fein headquarters was to shoot them on sight.

The discipline of all the Crown forces in Ireland, said Sir Hamar under the circumstances, was extraordinarily good.

The Government, Sir Hamar declared, declined to differentiate between the north and south of Ireland in applying the Home Rule Act. He continued:

"We decline to have an act of Parliament torn up by the intimidation of anybody in Ireland. We will have a parliament functioning in the north in June, and, we hope, the south will also. That is the key to the political solution of the Irish problem, but if it does not function every preparation has been made in the act to carry on successfully. Everyone, except the extremists, wants peace. The obstructionists are those who refuse a conference with the Government as to the best methods of securing accord between the two governments."

The Prime Minister, replying in the debate, declined to postpone the elections because that would give the impression that Parliament could not be trusted. To Ireland must be left the responsibility of accepting or rejecting.

Bringing Them To Justice

Nine Hundred War Criminals Are To Be Tried May 23.

Berlin.—Nine hundred Germans whose punishment had been demanded by the Entente for crimes committed during the war, will face trial at Leipsic, beginning May 23. Seven judges will sit as the court, and will first hear witnesses against minor offenders on a supplemental list. The trials of Non-Commissioned Officer Heine, charged with abusing British prisoners; Capt. Mueller, commander of the prison camp at Flavy-Le-Martel, and Private Neuman, who is alleged to have maltreated prisoners at the Prison Camp at Pommernsdorff, will be the first to be tried. Captain Neumann, commander of U-boat 67, which sank the hospital ship Dover Castle, will be arranged some time in June. Forty-seven witnesses have been called from England to testify in the first three cases.

An Example To The World

President Harding Speaks On Amity Between Canada and U.S.

Washington—The example of Canada and the United States dwelling alongside one another without fortifications for 100 years was pointed to as one which other nations might emulate by President Harding in an address at an Oddfellows meeting here recently in celebration of the 102nd anniversary of the order. Such concord might be possible among other nations, the President said, if they adopted the same enduring feeling and singleness of purpose "to forward the cause of humankind."

Unemployment In England

Is Growing at an Alarming Rate According to U.S. Consular Reports.

Washington. — Unemployment in England is increasing at an alarming rate, consular dispatches report. Birmingham, where more than 100,000 persons are idle, was cited as typical with an increase of eight thousand per week during the last three weeks.

An unprecedented volume of German goods is being dumped upon the British market, the message said.

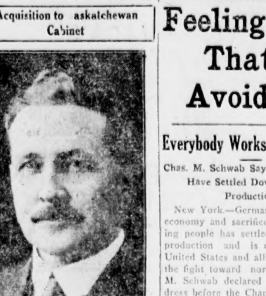
Naval Sailing Deferred.

Ottawa.—The date for the sailing of the Canadian squadron has been put back one week. The department of naval service announce that the ships will have Esquimalt for eastern waters on May 27.

Wheat Above Ground.

Lethbridge.—Two Taber farmers report wheat seeded this spring showing well above the ground.

Acquisition to askatchewan Cabinet



Mr. J. A. Maharg, President of the Saskatchewan Grain Growers, and member for Maple Creek in the Dominion House, who has accepted a portfolio in the Saskatchewan Government.

To The Arctic By Plane

Far North Communication by Airplane Is Now Established.

Edmonton.—With the return of one of the airplanes from Peace River, it is felt that far north communication by air has really been established. John M. Larson returned from Peace River in the J.L.-6, all-steel monoplane, in which he flew from New York to Peace River, stopping at Edmonton en route, and now on his way back.

The trip was made from Peace River in two hours and forty-two minutes, and this in spite of storms and head winds.

Piloting the plane was H. S. Myhres, who is one of the company's pilots, and who also accompanied George Gorman when he flew another of these planes across the continent in mid-winter.

Mr. Larson has given contracts for the building at Peace River of two big scows, and with these and a 60 horsepower motor boat, he intends to transport plenty of gasoline down to the stopping places in the north country. These scows will be ready to leave in four weeks, and after that he will build and take other sorts of equipment in ahead of him, he expects to make all sorts of long trips and thoroughly discover the north country. He intends to visit Coronation Gulf and various other points during the summer.

Meantime, he will return to New York and equip a machine with everything that will possibly be needed on such a trip.

Cost Of Hudson's Bay Road

Expenditures on Hudson's Bay Road Will be Double First Estimates.

Ottawa—That a total of $20,903,443.33 had been expended on the Hudson Bay Railway and that only $14,284,552.62 of this amount was expended on the railway, the balance of $6,305,891.71 being spent on the Port Nelson terminals, was stated in the House of Commons in answer to a question by Thomas MacNutt (Saltcoats). An estimate, based on the original estimates, placed the cost of completing the railway at $8,410,000, but the proviso was added that under present conditions the cost of completing the road would probably be twice that amount.

Federal House to Prorogue in June.

Ottawa.—Effort is being made to prorogue Parliament by June. The only business of major importance now remaining is the budget, which Sir Henry Drayton, minister of finance, is to bring down shortly. No official announcement is yet to hand in this regard, but expectation among members is that, in view of business conditions, the general revision of the tariff will be deferred. Should this course be followed, budget discussion could probably be disposed of in a couple of weeks.

Investigate Mineral Wealth in B.C.

Victoria, B.C.—The Canadian Pacific Railway and its subsidiary, the Consolidated Mining and Smelting Company, have appropriated a large sum of money with which to investigate the mineral wealth and production possibilities of the Esquimalt and Nanaimo railway mineral belt on Vancouver Island, B. C. Coleman, vice-president and general Canadian Pacific Railway, told Hon. Wm. Sloan, minister of mines.

Widespread Unemployment Expected

Ottawa.—The necessity of preparation at this time for unemployment "of staggering proportions which will inevitably occur next autumn," was placed before the special committee on pensions and re-establishment in a letter from C. G. MacNeil, Dominion secretary of the G.W.V.A.

Population of Montreal 758,045.

Montreal.—The population of Montreal last year, according to estimates made by the city assessors was 758,045, of whom 475,803 were French-Canadian; 101,271 English; 55,173 Irish; 31,724 Scotch; and 94,075 other nationalities.

Feeling In Paris That Germany Will Avoid Ruhr Occupation

Paris—A growing certainty that Germany will submit modifications to the reparations proposal in an effort to ward off occupation of the Ruhr region by France, prevails generally in French official circles.

There is a feeling, however, that the present German Government will not go far enough to make its offer acceptable, and diplomatic circles substantiate the views expressed in the newspapers that occupation of the Ruhr doubtless will be approved by the London conference of premiers, and that actual movement may be expected some time next week.

Dr. Von Oertzen, head of the German war burdens commission, refused to attend a meeting of the reparations commission today for determination of the ties and methods of the German payments.

Dr. Von Oertzen declared he did not believe he should attend in view of the present conditions.

Everybody Works in Germany

Chas. M. Schwab Says People There Have Settled Down to Real Production.

New York—Germany, through the economy and sacrifices of her working people has settled down to real production and is outstripping the United States and allied nations in the fight toward normalcy, Charles M. Schwab declared here in an address before the Chamber of Commerce of the State of New York.

"Germany today can put a ton of steel in England at a price $10 a ton cheaper than England can make it," he said, "and is selling pneumatic tools in Detroit where formerly we shipped such machinery to Germany and sold cheaper than she could make it. The difference is solely a matter of cost of labor. It is estimated that 5,000,000 men are out of work in this country; it is accordingly of supreme importance to the workingman as well as to the capitalist to restore our prosperity.

"Never before was the need for products so great; never before was such valuable producing machinery and facility available, and never before was there so much that needed to be done.

"I have just returned from Europe and I came with renewed admiration for the courage, the enterprise, the determination displayed in Italy, Belgium, France and England. Germany was ahead of all of them in production.

"Is it possible that after having won the war, we of the allied nations, with everything in our hands, will allow Germany to win the peace through the effects of her labor?"

Women Jurors For Alberta

Are Eligible For Duty But Not Compelled to Serve.

Edmonton, Alta.—In accordance with a bill passed by the Alberta Legislature, women will now be eligible for jury duty in this province. They will not, however, be compelled to serve as jurors. The bill was passed after strong opposition, one of the opposing members declaring that no good woman should be present at some of the cases presented in court. A member, favoring the bill, declared women ought to assume the responsibility. "It was no worse for women to serve on jurors than for women to be forced to attend the trials. Conscientious women would be willing to do their duty."

Expenditures For Dry Areas

Government Aid in Transporting Feed and Livestock.

Ottawa.—A total of $879,196 was expended by the Dominion Government in the transportation of feed and livestock, from dry areas to feeding areas in Manitoba, Saskatchewan and Alberta during the winter 1919-1920, W. H. White (Victoria, Alta.) was informed in the House of Commons.

Of this amount fifty per cent. was recoverable from the provinces of Manitoba, Alberta and Saskatchewan. The total expense by the federal department of agriculture for the purpose would be $467,209.

Postpone Negotiations.

Paris—The Foreign Relations Committee of the Senate has voted to postpone temporarily consideration of the question of a resumption of diplomatic relations between France and the Vatican.

Strong Plea for West at Railway Board Session

Emergency Relief Is Asked For at the Earliest Date Possible.

Winnipeg.—Emergency relief at the earliest possible date in order to prevent production from falling to so low a level that it may constitute a most dangerous situation not only for the country at large, but also for the railways interested, was requested by H. J. Symington, K.C., on behalf of the Governments of Manitoba and Saskatchewan, at the concluding session of the Railway Commission here.

Mr. Symington declared that never before had similar conditions existed in the west, and that farmers organizations were instructing the farmer to produce only what they could harvest themselves. The farmers, he said, were becoming despondent, and urged that something be done at once to save the situation.

Hon. F. B. Carvell, chairman of the board, promised that as soon as the board got back to Ottawa he would convey Mr. Symington's request to the heads of the various railways and to his colleagues and that it would be given very serious consideration at once. If anything could be done, always remembering that they must remain within the restrictions and obligations imposed upon them by the railway law, he for one would be only too glad to do all he could to assist, Mr. Carvell said.

An application for a reduction in the summer freight rates on coal from the western coal mines to Winnipeg and as far east as Port William was also made, and will be considered as soon as the board gets together in Ottawa, probably a week hence.

In resuming the discussion on the equalization of freight rates, F. H. Chrysler, K.C., representing the Railway Association of Canada, remarked that differences between the western and eastern rates, if they did exist, had already been reduced to about five per cent.

British Miners Holding Out

Negotiations Reported to Have Reached a Complete Deadlock.

London.—The negotiations which have been in progress with the purpose of endeavoring to end the coal strike, reached another complete deadlock when the Miners' Federation rejected the Government's latest offer to increase the temporary subsidy to the industry from £7,500,000 to £10,000,000.

The rejection was made by an overwhelming majority of the miners' delegates, because the offer "fails to concede the fundamental principle for which we stand."

All the delegates of the mine workers who have been attending the conference in London are returning to their respective districts. Although it will not, however, be compelled to ratify the decision of the delegates, this is considered unlikely. Frank Hodges, secretary of the Miners' Union, said the Government offer would mean a reduction in the miners' wages of two shillings in July, and four shillings a piece in August, and that this was more than they could agree to.

British Miners Reject Government's Offer

Leaders Say Deadlock May Continue For Another Month.

London.—Negotiations for a settlement of the coal strike have become deadlocked through the rejection of the government's temporary subsidy offer by the representatives of the miners, the three parties to the dispute, the miners, the owners and the Government, have once more returned to their respective camps to consider who should make the next attempt to negotiate a settlement, and what form that move should take. The members of the miners' executive board scattered to the coal fields this morning apparently without expectation of an early adjustment of the difficulty.

"The next business will be in the districts," said one of the leaders; while another told an interviewer "The change may continue for another month."

French Leaves Ireland.

London.—Viscount French has taken his formal farewell of Dublin as Viceroy. The King has created Lord Edmund Talbot a Viscount which honor he will assume tomorrow on the occasion of his taking office as Viceroy in succession to Viscount French.

Indian Reserve

Regulations Adopted by the Ermineskin Band of Indians

The following information will be of interest to the farmers, more especially those living near the reserve. The regulations were adopted and confirmed by His Excellency the Governor-General in council on the 4th day of March, 1921:—

1. The poundkeeper shall be appointed by the Indian Agent, and shall provide himself with suitable premises for the safe and proper keeping of all such animals as may be impounded by him, which premises shall be the recognized pound of the reserve.

2. The poundkeeper shall keep a book in which he shall record a description of all animals impounded, with the date of impounding, the damage claimed, the date released or sold and disposal of the proceeds.

3. The poundkeeper shall daily, at proper times, furnish sufficient food, water and shelter during the period that any such animal may be impounded, and may recover fees for such services as hereinafter provided; and for every day he refuses or neglects to properly care for or feed any impounded animal he shall be liable to a penalty of not less than $1.00 or more than $3.00 in respect of each such animal.

4. It shall not be lawful for the cattle, horses, mules, sheep or pigs of other than a member of this band to roam at large, feed or pasture, upon any portion of the reserve, except such as are placed upon the reserve for grazing with the knowledge and consent of the Indian Agent, and any animal so found unlawfully roaming at large, feeding or pasturing, may be impounded and dealt with as herein provided.

5. Anyone finding any animal on the reserve, roaming at large, feeding or grazing, in contravention of the foregoing section No. 4, may deliver the same to the pound, whether the owner of such animal be known or not.

6. Within two days after the impounding of any animal the poundkeeper shall have notices of same posted in at least six places on or adjoining the reserve, including the council house and the local post office; if the owner of the impounded animal is known, notice of impounding such animal shall be forwarded to such owner.

7. The owner of any animal in said pound may redeem such animal by the payment of fees as herein provided.

8. When an animal has not been released from the pound within twenty days after the notice has been posted, the said animal shall be sold by public auction after notice of such sale has been posted eight days in three conspicuous places within reasonable distance of the pound; and at such sale the poundkeeper, a justice of the peace or a licensed auctioneer chosen by the Indian Agent, shall be the auctioneer, and such sale shall be held at the pound, and shall commence at two o'clock in the afternoon.

9. The proceeds of any impounded animal sold under these regulations shall be applicable in payment:—
(a) Of any costs and charges attending such sale,
(b) Of all sustenance fees,
(c) Of advertising and necessary expenses
(d) Of charges for impounding, damages and unpaid grazing dues.
And the residue, if any, shall be paid to the owner, or, if not claimed at the time of such sale, shall be paid forthwith to the Indian Agent, to be transmitted to the Department of Indian Affairs, and any money so paid to the Department shall be returned to the owner of the animal sold in evidence satisfactory to the Department being furnished, and application therefor being made within three months from the date of sale; otherwise such money shall be placed to the credit of the ranch account of the band.

10. The following fees shall be charged and recovered by the poundkeeper:
(a) To the impounder of such animal, $1.00.
(b) For maintenance during summer months, 50c per head per day; for maintenance during winter months, $1.00 per head per day.
(c) For advertising cost of same.
(d) For posting notice and impounding and sale, 10c per mile necessarily travelled.
(e) trespass and grazing, not to exceed $5.00 per animal.
(f) For selling impounded animals, 2½% commission upon the amount realized at time of sale.

11. Provided that, where an employee of the Indian Department is the poundkeeper, all fees due to him shall be paid to the ranch account of the Agent.

(a) In case the owner of the animal impounded takes exception to the amount of fees or expenses claimed by the poundkeeper or the party impounding the animal, the owner and party complained of shall at any time within three days appear before the nearest accessible justice to the place where the animal was found, or such other justice as the parties may agree to appear before, and upon hearing the statements of the parties on oath or otherwise, as to the justice shall seem advisable, such justice shall determine the amount of expenses payable in the matter, and such determination of the justice shall be final and conclusive between the parties.

(b) Such justice shall be entitled to a fee of $1.00 for determining such expenses which shall be paid by the party against whose contention the justice determines.

(c) In default of the payment of the expenses so determined and of the justice fee aforesaid, within a time to be stated by the justice, the justice shall sell or cause such animal to be sold by public auction either by the nearest accessible poundkeeper or any one authorized by him in writing to sell such animal, and such justice, out of the proceeds of such sale, shall first pay the expenses of sale and advertising and justice fees and then the fees allowed the poundkeeper and the finder, if any, and the balance to the owner.

(d) The justice of the peace shall, immediately after the sale send a description of the animal sold, date of sale, the amount received and the disposition thereof, and the balance remaining in his hands, to the Indian Agent to be forwarded to the Department of Indian Affairs.

When Sleep Comes Back

Weekly Health Talk No. 18
By Dr. H. B. Foster, the Chiropractor

When sleep deserts you, then strength departs. It is a great day when sleep comes back.

Loss of sleep is due to pressure on spinal nerves affecting the brain. Seemingly the victim of this ailment cannot stop the train of thought. Lack of ability to rest brings on extreme nervousness, often times the victim fears that he is going to pieces and may even fear for his sanity.

When the chiropractor by his skillful adjustments restores the joints of the spine to alignment and removes the pressure on spinal nerves which is causing this trouble, the patient experiences a relaxation that is all the more profound because of the need of the exhausted body. Strength is rapidly regained once the ability to sleep is regained.

Unable to Relax or Sleep but Can Now

"I had not slept more than three hours out of every twenty-four. After my husband died I could not discuss my business affairs with my attorneys without "going to pieces." When I tried chiropractic I was desperate. After the first adjustment I slept fourteen hours. In forty more, I was a new woman, able to sleep all night, and eating what I wanted. Chiropractic should be welcomed as the greatest panacea of human ills."—Mary Miles Baker, Chiropractic Research Bureau Statement No. 1256L.

50,000 CHEVROLET "Four-Ninety"

CHEVROLET

THE production schedule of Chevrolet "Four-Ninety" Models for the seven months from January 1st to July 31st, 1921, is fifty thousand cars.

To each retail purchaser of a new Model "Four-Ninety" car at present list prices, we will make the following cash payments,—"Four-Ninety" Touring $70; "Four-Ninety" Roadster $70; "Four-Ninety" Light Delivery Wagon $70; "Four-Ninety" Chassis $70; "Four-Ninety" Coupe $100; "Four-Ninety" Sedan $100; provided the Chevrolet Motor Companies manufacture and sell fifty thousand new Chevrolet Model "Four-Ninety" cars between January 1st, 1921, and July 31st, 1921. This offer to be subject to the terms as set forth in full in the refund certificate which will be delivered to each purchaser.

This refund represents savings in material prices under present readjusted conditions, which savings can be made provided Chevrolet factories continue to operate on the estimated average quantity production basis.

It is in keeping with the Chevrolet policy to make the price of its product as low as quality manufacture on a large scale will permit. It is in keeping with the Chevrolet purpose of providing quick, convenient, economical transportation at a cost within reach of those who want an automobile.

Fifty thousand cars is the minimum which Chevrolet engineers estimate will secure substantial savings in cost in manufacture. These savings will be passed on to the purchasers of these fifty thousand cars.

Each purchaser of a Model "Four-Ninety" will receive a certificate from his dealer, or from the Chevrolet retail store manager. This certificate will be redeemed as indicated on its face.

The entire plan is a straightforward business proposition presented in a straightforward way. Whether you are in the market for a new car or not, you must not fail to learn the details of this unique and simple plan. It offers to every man of sound business judgment an opportunity to take advantage of the best automobile value obtainable.

Retail purchasers of Model "Four-Ninety" cars since October 1st, 1920, will receive their certificates through their local dealers or retail stores on application to them.

Production results will be announced not later than August 10th, 1921. Certificates will be subject to payment according to their terms, thereafter, up to September 15th, 1921.

World Happenings Briefly Told

Ford Motor Co. has started recall of single workers without dependents to its automobile plant at Detroit.

Final figures of the referendum commission put Toronto on the wet side by a majority of 9,010.

A Cincinnati woman left the bulk of her estate to the U.S. Government to help pay off the war debt.

A Detroit judge permitted a prisoner to leave court to attend a funeral. He hasn't got back yet.

Welland, Ont., fears loss of early cherries by the recent severe cold weather.

In five years Chicago has had 1,144 murders, New York 1,121 and London, England 128.

Among the items approved by the Ontario Legislature is one of $1,000,000 for establishing a provincial cement plant.

From 40,000 to 50,000 men will be required to gather the 1921 crop in Kansas, it was estimated at a meeting of heads of employment agencies.

Provision for protection of the Holy Sepulcher against fire has been made by Sir Herbert Samuel, high commissioner for Palestine, says the Palestine weekly.

C. A. Birkett, of Fort William, was appointed secretary of the Grain Inquiry Board at an informal meeting of members. He has arrived in Winnipeg.

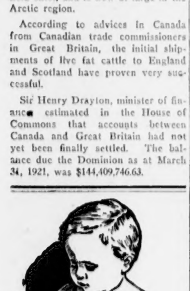
Four men were fined $200 and costs or thirty days in jail, and three others were remanded on charges of disorderly conduct arising out of the unemployed demonstration in Toronto.

Sir Edgar Walton, the high commissioner for South Africa, in an interview with the London Times, says General Smuts' government has got well into the saddle and already had done much to unite the people.

Ouangwak, the Eskimo murderer, who, to secure a wife, killed two of his fellow tribesmen, has escaped from the Mounted Police at Chesterfield Inlet, and is now at large in the Arctic region.

According to advices in Canada from Canadian trade commissioners in Great Britain, the initial shipments of live fat cattle to England and Scotland have proven very successful.

Sir Henry Drayton, minister of finance estimated in the House of Commons that accounts between Canada and Great Britain had not yet been finally settled. The balance due the Dominion as at March 31, 1921, was $144,409,746.63.



Keeps Baby's Skin Healthy

IF every mother could only realize the danger which lurks in the neglect of chafing and skin irritations she would not take chances on being without Dr. Chase's Ointment to apply after baby's bath.

It arrests the development of eczema and makes the skin soft, smooth and velvety.

10 cents a box, all dealers, or Edmanson, Bates & Co., Ltd., Toronto.

Dr. Chase's Ointment

Watering Farm Horses

Working Horses Are Frequently Neglected, Which Leads to Serious Results.

Walter Moore, a well-known writer, says:—

"It is a common thing for farmers to work their horses in the hay field from morning to night, watering them only at noon. This is done even on days of excessive heat. The driver usually has two or more refreshing drinks in the middle of the morning and again in the afternoon, but the horses, who are equally as thirsty, go without. This want of water is not only excessive, but it causes the horses to drink to excess at noon, and again at night, which often results in colic, and always tends to produce a distended stomach of what farmers call a 'hay belly.' Farmers who would treat their horses humanely should take water into the field for them in hot weather."—Boston Work Horse Relief Association.

THE FATEFUL YEARS FOR EVERY WOMAN

How to Overcome Troubles That Afflict Women Only.

So far as a woman's health is concerned, probably the most fateful years in her life are those between 45 and 50. Many women enter this period under depressing conditions, through overstrain in household cares, or a neglected condition of the blood, and so they suffer heavily.

Amongst the commonest symptoms at this time are headaches, pains in the back and sides, fever flushes, palpitation, dizziness and depression. It is well to know that these variations of health can be relieved by home treatment. What women stand in need of all their life, but never more so than in middle age, is rich, red blood. As a tonic for the blood and nerves, Dr. Williams' Pink Pills are always useful, but especially will they help women at this time. Among those who have found benefit from using Dr. Williams' Pink Pills is Mrs. I. A. McDougall, Rhodena, N.S., who says: "I was greatly troubled with nervousness, palpitation of the heart, dizziness, and a generally run down condition. It was only with difficulty that I could do my work and although I had been taking medicine for some time I did not improve. Finally a friend advised Dr. Williams' Pink Pills, and I got a supply and began taking them. The result more than met my expectations, and I am feeling better than I have done for years, sleep well, eat well, and do my housework much more easily. In my case the pill certainly did what you claim for them."

Dr. Williams' Pink Pills are sold by all dealers in medicine, or you can get them by mail at 50c a box or six for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Direct wireless communication between England and Australia has been successfully effected on the Marconi principle. The distance covered is between 12,000 and 13,000 miles.

Minard's Liniment used by Physicians

Britain Acquires Valuable Island

Forfeited German Islands Is Said To Contain Phosphate Riches.

As one of the incidentals of the war and the dividing up of the former German possessions in the Pacific, the British Empire has acquired what is perhaps the richest supply of phosphate in the world. Two tiny islands in the South Pacific, the island of Nauru and the Ocean island, taken over by Great Britain under mandate after the war, have been found to be treasures out of all proportion to their size.

Up to ten years ago the names of these islands were unknown to any but the geographer and the specialist. They lie out in the lonely Pacific about 50 miles south of the equator and some 3,000 miles west of the coast of South America. In 1885 the two islands, then considered of no commercial value, were formally annexed by Germany. Some time afterward deposits of phosphate were discovered on Ocean island and later still Nauru was found to have phosphate deposits.

When the two islands, with the remainder of the old German possessions in the South Pacific, were transferred to Great Britain under mandate, an agreement was made on July 2, 1919, between the Governments of the United Kingdom and Commonwealth of Australia and the Dominion of New Zealand for the allotment of British-controlled phosphates in the Pacific Ocean on a basis of 42 per cent. to the United Kingdom, 42 per cent. to Australia and 16 per cent. to New Zealand.

It is stated that the formation of these phosphate beds has been accomplished largely through the agency of fish-fed sea birds which have left vast deposits of guano on the islands. The guano, mingling with the lime of the coral rock has practically converted the whole of the islands into great repositories of phosphate of lime. In Nauru these phosphate deposits run to a depth of 40 feet and on Ocean island they are 57 feet deep.

Queen Mary makes it her practice to examine personally, at the end of each month, the household accounts of Buckingham Palace and other of the royal residences.

Keep Minard's Liniment in the house.

Creeps Into the System Just Like a Serpent

Like a thief in the night, it steals through the system—that's how Catarrh acts. Don't trifle with such a scourge. Time and experience have proved that Catarrhozone is a wonderful remedy for all Catarrhal and bronchial troubles. You don't take any drugs, you just inhale the sweet soothing vapor of Catarrhozone which is laden with balsamic essences that heal, relieve and ease the sufferer. To strengthen the throat, to sweeten the breath, to stop nasty discharges, to drive out Catarrh, colds and weakness in the throat, use Catarrhozone. Two months treatment, one dollar, smaller size 50c, all dealers or the Catarrhozone Co., Montreal.

To Begin Irrigation Work

To Bring Water to 100,000 Acres in the Lethbridge District.

It is now assured that construction on additional irrigation works to bring water to 100,000 acres in the Lethbridge Northern Irrigation district, will be started on the 1st May. The legislature of Alberta now in session has unanimously decided to guarantee the necessary increases The large farming area already under irrigation around Lethbridge has been very profitable. Bonds covering expenditure for the new irrigation area guaranteed by the province of Alberta will shortly be on the market.

The Dumb Animals

Movement For Greater Kindness to Dumb Animals Is Growing.

The movement to set aside special days for greater kindness to dumb animals is growing. It is a movement that appeals to reason.

Go back into childhood and almost anyone recalls a certain pet dog that was as loyal a friend as one could have. Who a child did not worship the intelligent old horse in grandfather's barn? Who did not have difficulty keeping back the tears when mother read aloud the stories of "Beautiful Joe" and "Black Beauty."

Much of the joy of youth is inseparably bound up with dumb animals. Children instinctively are affectionate and kind to dumb brutes. That is the normal attitude toward them. As we grow older, however, we grow thoughtless and many are unnecessarily cruel to dogs and cats and the beasts of the field and the fowl of the air.

We owe a mighty debt to dumb animals.—Winnipeg Tribune.

Manitoba's Population.

The total population in Manitoba in 1920 was 541,466, according to the annual report of the vital statistics branch of the Provincial Government. The death rate for the province last year was 12.2 per thousand, a reduction of 2 per thousand over 1919. Births in 1920 totalled 18,536 as against 15,019 during the previous year.

Catarrhal Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure Catarrhal Deafness, and that is by a constitutional remedy. HALL'S CATARRH MEDICINE acts through the Blood on the Mucous Surfaces of the System. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing may be destroyed forever. Many cases of Deafness are caused by Catarrh, which is an inflamed condition of the Mucous Surfaces.

ONE HUNDRED DOLLARS for any case of Catarrhal Deafness that cannot be cured by HALL'S CATARRH MEDICINE. All Druggists 75c. Circulars free.
F. J. Cheney & Co., Toledo, Ohio.

An Ancient Spinster

Poland Claims to Have the Oldest Maid In Central Europe.

Poland claims the oldest spinster in Central Europe. She is Miss Anna Dobek, living in Chocholow, who recently celebrated her 123rd birthday. Miss Dobek is still quite active, physically and mentally, and does some housework each day.

She also has a sense of humor, and to her acquaintances, attributes her longevity to the fact that she has never been bothered by having a man about the house. Miss Dobek doesn't like cats, either.

During the past year 681 newspapers and periodicals printed in England have raised their subscription prices owing to the high cost of publication.

London maintains a laundry school, where girls are taught the true art of washing clothes.

That's Why You're Tired

—Out of Sorts—Have No Appetite Your Liver Is Sluggish

CARTER'S LITTLE LIVER PILLS will help put you right in a few days.

They act quickly though gently and give nature a chance to renew your health. Correct the immediate effects of constipation, relieve biliousness, indigestion and sick headache.

CARTER'S LITTLE LIVER PILLS

Small Pill—Small Dose—Small Price

Eyelet Embroidery Is A Favored Trimming

By Marie Belmont.

One of the most interesting developments in the adorning of the new spring frocks and suits is the lavish use of eyelet embroidery. It is exceedingly effective, as it permits the use of contrasting fabrics which add much to the beauty of the models. This dress, cut from soft folds of salmon chiffon is partly veiled by eyelet batiste. The latter richly embroidered with eyelets, is disposed in panels on the front of the dress. The lower part of the corsage is covered with the batiste which is cut in pointed style. A huge sash of chiffon is bowed at the waistline, and the long ends become panels that are much longer than the front of the gown.

Sickening Calomel Not Favored

More Agreeable Medicine Described

Calomel and Blue Pills are not used as they once were. When the head aches, when the stomach is upset, when the liver is not working right, don't resort to harsh calomel, use a pleasant agreeable remedy like Dr. Hamilton's Pills. Being largely vegetable in their composition, Dr. Hamilton's Pills are extremely mild, yet they surely flush out all impurities and wastes. No remedy is so well adapted for general family use. For constipation and bowel trouble, Dr. Hamilton's Pills can't be improved upon. Good for the young, the old, the sick, the well ones. The benefits of Dr. Hamilton's Pills are manifold. Needed and useful in every home, 25c all dealers everywhere or The Catarrhozone Co., Montreal.

Winnipeg Industries

City Has An Estimated Annual Payroll of $24,308,982.

With an estimated capital of $96,698,825, an estimated annual payroll of $24,308,982, the output of Winnipeg's industries in 1920 was valued at $120,213,000. Of this sum flour and grist mills absorbed $14,487,398; slaughtering and meat packing, $6,236,236; butter and cheese, $2,905,648; bags, cotton, $2,750,623; electric light and power, $2,335,907; lumber products, $1,818,567; bread, biscuits and confectionery, $1,816,671; printing and publishing, $1,785,004; malt liquors, $1,663,905; coffees and spices, $1,704,424; foundry and machine shop products, $1,493,560; furnishing goods (men's), $1,147,456.

Every careful and observant mother knows when her child suffers from worms. She also knows that if some remedy be not speedily applied much harm will result to the infant. An excellent preparation for this purpose is Miller's Worm Powders. They drive worms from the system and set up stimulating and soothing effects, so that the child's progress thereafter is painless and satisfying.

Paris Growing Slowly

Has Added Only 16,512 in Last Ten Years.

The population of Paris has been increased only by the insignificant figure of 16,512 since 1911, it is shown by census returns now available for the whole of the city's twenty provinciements. The total number of inhabitants of the French capital is today 2,863,741.

There has been a decrease in the number of residents in twelve arrondissements, slight increases in seven others, while in the remaining one, the fashionable 15th arrondissement, there was 23,253 increase.

New Creamery Plant Planned.

Several creamery and cold storage plants, construction of which was commenced last year, are to be completed as quickly as possible this summer by the Saskatchewan Co-operative Creameries. The new plants are at Yorkton, Weyburn and Melfort.

The first successful aerial photograph taken by the British was one of Neuve Chapelle, in 1914.

SUNDAY SCHOOL LESSON

LESSON FOR MAY 8.

REST AND WORSHIP (RECREATION).

The title "Rest and Recreation," as chosen by the committee, is hardly true to the content of the Scripture passages. It should be "Rest and Worship."

I.—The Feast of Tabernacles (Lev. 23:39-43).

This was the final feast of the series which in type covered the great facts of redemption.

1. Time of (v. 39). It was on the fifteenth day of the seventh month and lasted seven days. This time would about correspond to the close of our September and the beginning of October. It was after the harvest had been gathered.

2. Method of keeping (vv. 40, 42). They were to take the boughs of goodly trees, branches of palm trees, and the boughs of thick trees and willows of the brook, and construct booths. These booths were placed on the flat tops of houses, on the streets and open places of the city, and even in the fields. In these the people dwelt for the whole week.

3. The significance of it (v. 43). (1) A memorial of Israel's dwelling in booths in the wilderness (vv. 42, 43). It reminded them of God's care of them during their journey through the wilderness. (2) A "harvest-home thanksgiving" (v. 39). "When ye have gathered the fruits of the land." (3) It foreshadowed the final gathering of God's redeemed ones from all nations (Zech. 14:16, 17).

II.—The Sabbath Day (Deut. 5:12-15).

1. Meaning of (Gen. 2:2, 3; cf. Ex. 20:8-11). According to the etymology of the word, "Sabbath" means to desist from exertion—repose. God rested when the work of creation was done. On the basis of this, God has established the law of labor and rest. It is not only a memorial of creation, but of redemption (Deut. 5:15). The Jews were to keep the Sabbath in memory of the deliverance from Egyptian bondage.

2. Obligation of (vv. 12-15). (1) Kept as a sacred institution (v. 12), God sanctified it (Gen. 2:3). "Sanctify" means to consecrate, dedicate, therefore holy. It means set apart to God's service; therefore keeping the Sabbath meant more than cessation from labor—it meant to cease from labor in order to occupy one's self with God. Its supreme signification and obligation was to remember God (2) No work to be done on the Sabbath (vv. 13, 14). All work was to be done in six days. In fact, the obligation to work six days is here made just as binding as to keep the Sabbath day. (3) By whom should the Sabbath be kept (v. 14)? (a) The head of the family. He should be the example for all. (b) The children. The children should be obliged to follow the example of the parents in keeping the Sabbath. (c) The servants. The maid in the kitchen, the servant on the farm, the chauffeur in the city, should keep the Sabbath as well as the head of the family and the children. (d) The beasts of burden. The dumb animals are likewise entitled to their rest. (e) The stranger. The foreigner who comes to our shores should be obliged to keep the Sabbath. It should be kept in mind that Christians are not under obligation to keep the Sabbath as law (Col. 2:16, 17), and especially as it applies to any particular seventh day. The first day of the week is the proper day for a Christian to observe. This he does not as a law, but as a glorious and exalted privilege. He is on resurrection ground, therefore above the law. While the keeping of the Sabbath is a matter of privilege, woe unto the one who abuses this privilege. The principle of resting one day out of seven is inexorable in its demands. (4) The ground of obligation was redemption from bondage (v. 15).

III. Jesus Invited His Disciples to Rest (Mark 6:31, 32).

He took them apart to a desert place. This was not primarily for recreation, but that they might be free from the crowd to have fellowship with Him, that they might be prepared for the strenuous days which were to follow.

English Women for Domestics.

Several thousand English women, selected for suitability in domestic service, will in a short time be sent to this country by the Salvation Army, declared Commissioner B. C. Lamb, of the Salvation Army immigration work. Commissioner Lamb is at present in Canada conferring with the government and looking over the labor situation with a view to absorbing immigrants from England.

Big Sale of Timothy Seed.

Growers of Timothy seed in the Pincher Creek district, Alberta, have recently sold 500,000 pounds of seed to a Chicago firm. The price paid was from 5½ to 6½ cents per pound.

Some Yield

An acre of ground planted with bananas will, it is estimated, produce nearly 20 tons of fruit, as each bunch of bananas weighs from 70 to 80 pounds.

The outside walls of many of the houses in Mexico are from three feet to six feet thick to withstand earthquake shocks.

Prominent Western Man Praises Tanlac

G. W. Logan, Peabody, Kansas

"Tanlac has completely restored my health and I feel finer than in years," was the straightforward statement made recently by Mr. George W. Logan, of Peabody, Kansas, one of the most prominent stock-dealers in the Middle West.

"It has not only made a new man of me but I have actually gained thirty-five pounds in weight and feel as well as I ever did in my life. I am telling all of my friends about Tanlac but they can see for themselves what it has done in my case.

"When I began taking Tanlac I was in an awful run-down condition. I was away off in weight, felt weak and nervous all of the time and couldn't take any interest in my work or anything else. My main trouble was indigestion. Nothing seemed to agree with me. At times I would have dizzy spells and at other times my back would ache so bad that I could hardly get up and down in my chair. This is just the condition I was in when I started to take this medicine. It took just six bottles to make a well man of me. I now have a fine appetite, everything tastes good and my digestion is perfect.

"My wife was also troubled with indigestion at times and it relieved her the same way. You may publish my statement wherever you like and if anyone doubts it, just tell them to see me."

Hands Across the Sea

Forget Minor Differences of View and of Prejudices.

In the hands of the American and of the English people lie the security and well-being of the human race. If Great Britain and America, whose ideals we firmly believe to be fundamentally in accord, can, in the next few years, be brought into closer appreciation, each as to the other's difficulties and problems; if they can be persuaded to forget minor differences of view and of prejudices; if they can grow to a common understanding of their mutual obligations and responsibilities to the world, they can become the leaders along the path of world progress.—New York Post.

Lignite Coal In Western Canada.

The coal produced at the Lignite Utilization plant at Bienfait, Sask., will be placed on the Winnipeg market at $11.50 per ton, according to a statement made recently in the Manitoba Legislative by Hon. T. H. Johnson, attorney-general. If all that is claimed for the briquettes manufactured at the Bienfait plant is correct, the price above quoted should revolutionize the coal trade of Winnipeg.

German Lawyers Attend Court

Present at Bow Street For First Time Since 1914.

German lawyers were present for the first time since 1914, in the Bow Street court, when British soldiers who were prisoners of war, gave testimony against German army officers accused of cruelty and atrocity.

The evidence given will be used in the trial of German "war criminals" at Leipsic under the provisions of the Versailles treaty. The men were examined here because they were unable to go to Leipsic.

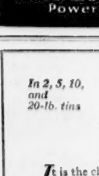
Travers Humphrey, counsel for the British Government, stated the German Government had accepted the charges against the accused officers and was acting in the role of prosecutor.

Nearly all children are subject to worms, and many are born with them. Spare them suffering by using Mother Graves' Worm Exterminator, an excellent remedy.

Among the Russian crown jewels, the whereabouts of which remain a mystery, is an emerald weighing six and three-quarter pounds.

Satisfaction in both Cans

Imperial Mica Axle Grease contains just enough powdered mica to form a smooth, hard surface on the axle which relieves friction and enables grease to do its work better. It prevents hot boxes and scored axles, and outlasts other greases two to one.



Imperial Eureka Harness Oil penetrates every fibre of leather, thereby excluding moisture, dust and sweat. It preserves harness, and prevents cracking and breaking of stitches. Harness that is treated with it lasts for years, looks well all the time and requires little repairing.

Ask your nearest dealer about these two high quality products. He has both in convenient sizes.

IMPERIAL OIL LIMITED

Power Heat Light Lubrication

It is the children who tax the Crown Brand factory to its capacity. There is some vital need of children that it satisfies better than anything else. That is why it does them so much good—whether used as a spread, as a table syrup, in baking, cooking or candy-making.

THE CANADA STARCH CO., LIMITED, MONTREAL

Crown Brand Syrup

"The Great Sweetener"

Asker

Rev. James, of Wetaskiwin, will give a service at the church on Sunday, May 8, at 3.30 p.m. Everybody welcome.

Mrs O. S. Krefting entertained a number of friends on Friday last week.

The school children will receive their garden seeds this week. Let us hope they will be industrious and keep their little plots in the home garden in good shape for the final results at the fall exhibition in which some ten schools are competing—the centre to be at Ponoka.

Mrs A. Ravnsborg entertained the family and a number of friends last Saturday evening, the event being Jake's twenty-first birthday.

Do not forget the date of the dance Friday, May 6. Red Deer orchestra.

Water Glen

Members of the U.F.A. must not for get the meeting to be held at the home of O. W. Johnson on Thursday, May 12. This meeting is of importance, as all arrangements for the annual picnic are to be made.

The dramatic society held a rehearsal on Saturday evening, just a reminder that the "Village Lawyer" will be played again, but this time in Wood River Hall sometime towards the end of May. Watch for posters and date.

The Misses Jessie and Bertha Bolch spent Wednesday afternoon in Mrs O. W. Johnson's garden. Wonder if they were picking strawberries, or what's the idea?

Last Friday night a large number of people gathered at the hall and spent an enjoyable time.

Special service and sacred concert will be held Sunday evening in the Swedish Baptist church. The concert will be in English as well as Swedish languages. Everybody welcome.

Mr and Mrs E. E. Gustavison, Edwin Dufva, and Jack Dunkerley spent Sunday with Mr and Mrs O. W. Johnson.

A few of the young folks of the Glen took in the box social held in the Calumet school last Thursday night. Tom didn't have to pay eleven dollars this time for his supper.

Mr and Mrs Garry Phillips spent Sunday evening with Mr and Mrs Chas. A. Johnson.

W. Tennis has taken the contract for grading the roads from Water Glen to the end of district No. 428 west and south. His Rumley will be pulling two graders. Better roads means a lot to everybody.

CARD OF THANKS

We desire to thank the many friends and neighbors who so kindly assisted us in the sickness and burial of our beloved husband and brother; to Rev. P. Baker for his helpful sermon; to the quartette for their appropriate and beautiful music; to the I.O.O.F. for their assistance in the services, and to those who so kindly gave the beautiful flowers.

MRS H. C. LANCE
MR AND MRS G. E. LANCE
MR AND MRS HARRY IRELAND

MR FARMER!

If you are coming to town in your busy season, and have to come in the evening, bring in your cream and drop it off at the U.F.A. I am living three doors north, i.e., between the blacksmith and harness shops, and close enough to fix it up right away. We expect to move to the U.F.A. Cream Station next week.

Yours for service,
A. AWTER, Cream Buyer.

Auto and Tractor OWNERS

I have taken over the Repair shop in connection with the Vulcanizing and Accessories of E. Cannon and at your service for all Repair Work on Automobiles, Tractors and Magnetos

All Work Guaranteed

EMPRESS

SATURDAY, May 7th

BERT LYTELL
—IN—
"Alias Jimmy Valentine"

No need to explain who Jimmy Valentine is. He's more notorious than leap year and fully as dangerous. He's craftier than a twice widow stalking her third victim; and stouter of heart than the man who marries her. The most magnetic star of the screen in a play more famous than the eighteenth Amendment and many times as popular.

Admission—15c and 35c

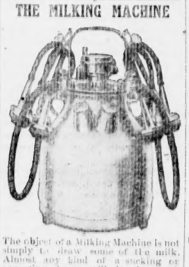
THE MILKING MACHINE



The object of a Milking Machine is not simply to draw some of the milk. Almost any kind of a sucking or squeezing device will do that. A successful milker must continue to get all of the milk, and do it in such a way that the milk giving ability of the cow will be developed, and the maximum yearly yield of milk be obtained. A good milker must be simple, easy to keep in order and to operate, and so constructed that the milk is kept free from dirt.
